"Perfect Flight," Says Amelia On Landing After 2400 Mile Trip

(BULLETIN)
(International News Service)

WHEELER FIELD, Honolulu, T. H., March 18.—Amelia Earhart brought her silver-colored seven-ton transport plane to a landing here today and thereby wrote another chapter in her spectacular flying career.

America's No. 1 woman pilot, with three male aides, swooped down out of a soft Hawaiian sunrise to complete the first lap of her contemplated 27,000-mile equatorial circuit of the globe.

This lap was the dangerous 2400 miles of rolling Pacific between Oakland, Cal., and Honolulu.

Miss Earhart landed at 5:55 a. m., (8:25 a. m. PST.)

Time Is 15 Hours And 45 Minutes

Her time for the 2400-mile flight was 15 hours and 48 minutes. She took off from the mainland at 4:37 p. m. (PST) yesterday.

Miss Earhart was given a roaring reception by a crowd of more than 6,000 persons.

She smiled as she stepped from

PA NEWC OBSERVES

It looked this morning as if the weatherman was trying to catch up with last year's recorc snowfall, which happened about the same period, the huge flakes starting to fall shortly before 8 o'clock, kept coming down steadily for a time. During March of last year, 18 inches of snow fell betwen March 16 and March 21.

Robins and roses. There seems to be plenty of the former but not so much of the latter. The latest robin to be seen hopping around in the snow was seen by Mrs. Carl Anderson of Weigletown, Pa Newc is told.

Pa Newc's remote control system brings in a startling bit of news this morning from Bessemer. It seems that a mother goat on the farm of Joe Yardis gave birth last night to quintuplets. Mother and young ones are said to be doing fine. Pa Newc hasn't seen them with his own eyes as yet but that is the report and you can take it or leave it, friends.

Target shooting has certainty become popular in New Castle. There are seven clubs, if you count the two at senior high school. And the city has some darn good marksmen too, if you please.

Requiring all candidates who desire to run for office to post cash sums which will be forfeited if the candidate does not poll a certain proportion of the vote cast, will save a lot of tabulating work for election boards in this locality in the future. The cash fee requirement is a part of the new election code which is now before the state legislature as an administration measure.

Traci Trial Is Started In Court

One Juror Had Been Selected At Noon—Case Delayed At Start

TRACI ACCUSED IN DUKES' DEATH

Sam Traci, of Cleveland, O., went on trial today in Lawrence County court on the charge of murder of Policeman Robert H. Dukes. Traci is the second man to stand trial for the crime, Angelo Pedonesi being acquitted for the same crime on Thursday, March 11. At noon today, one juror, Arlina Patterson, a housekeeper of the sixth ward had been accepted.

The case did not get under way until about ten thirty due to the fact that twelve jurors of the panel were on the Esposito case. The commonwealth and the defense finally agreed to waive these twelve out of the panel and Traci was arraigned. With this 12 out and the number excused in the past few days there are but thirty-five in the panel. Unless one juror out of three can be accepted it will be necessary to summons extra talesmen.

Wife With Him

Sitting with Traci this morning was his wife and a male relative from Cleveland. The alleged crime for which he is standing trial occurred on February 9, when Policeman Robert H. Dukes was engaged in a fight in an alley near 903 Moravia

Discount Clerk Is Acquitted In Trial In Federal Court At Erie

(International News Service)

ERIE, Pa., Mar. 18.—Miss Hazel A. Benson, a discount clerk, today was acquitted on all 30 counts of an indictment arising from the alleged $1,300,000 shortage in the closed Commercial National Bank of Bradford, Pa.

Federal Judge R. M. Gibson ordered a directed verdict of acquittal for the weeping defendant on three counts and the jury after brief deliberation freed her on the other 27 counts.

The next defendant called to trial, Howard Benson, her brother, who was a discount clerk in the bank, pleaded nollo contendere (no defense) to two indictments, one of 30 counts charging false entries and the other charging an overstatement of $150,000 to the Federal Reserve bank of Philadelphia.

His co-defendant on the indictment charging the overstatement Floyd R. Parmenter, a trust officer, cashier and director in the bank, pleaded not guilty and was at once placed on trial on that one charge.

Will Reopen Divorce Case Of Mrs. Simpson

(International News Service)

LONDON, March 18.—The divorce case of Mrs. Wallis Warfield Simpson against Ernest Aldrich Simpson will be reopened in the London divorce court tomorrow, it was learned today.

An application by the king's proctor "for directions" in the case will be heard by the president of the divorce court, Sir Boyd Merriman.

The king's proctor has the power to intervene in a divorce case between the time an interlocutory decree is granted and the divorce made final.

Mrs. Simpson was granted an interlocutory decree at Ipswich Assizes last fall, accusing her husband, a former officer in the Coldstream Guards, of infidelity.

Departure of Mrs. Simpson for France and abdication of King Edward VIII from the throne of England followed granting of this decree.

Since that time, there have been repeated reports appeals had been made to the king's proctor for intervention in the divorce action on grounds of "collusion."

One such appeal was said to have been made by a firm of London solicitors acting on behalf of an un-

Governor, Detroit Mayor, And Large Police Squad Halt Sit-Down In Store

By JAMES L. KILGALLEN
International News Service Staff Correspondent

DETROIT, Mich., March 18—Governor Frank Murphy and the Detroit police department played roles in bringing to an end early today of a mysteriously called sit-down strike in the Frank and Sedar Department store, in the heart of the downtown district.

It was the first time the police swung into action on a large scale since the rash of sit-downs broke out a week ago last Monday with the seizure by strikers of the eight automobile plants of the Chysler Corporation.

The Chrysler situation remained in status quo, however, with the strikers still holding complete possession of the $50,000,000 Chrysler properties in defiance to a court injunction ordering them to vacate the plants.

Three Hundred Officers Act

Three hundred blue-coated policemen were suddenly thrown around the Frank and Seder store last night. A sit-down had been in progress about five hours. Somebody had gone into the store late in the afternoon, blew a whistle and said, "It's a strike!" Customers were ejected.

Simultaneously with the arrival of the police, Governor Murphy put in an unexpected appearance at the

Police Holding Two In Canton Murder Probe

Husband Of Victim And Divorcee Are Under Technical Arrest

BOTH ARE PLACED IN CANTON JAIL

Continue To Maintain Innocence Of Crime—New Sensations Loom

By ALVIN L. KRIEG
International News Service Staff Correspondent

CANTON, O., March 18.—Deuber S. Cable, husband of the victim in Canton's sensational murder mystery, and Miss Theresa Ludwig, divorcee with whom he had had an affair for seven years, were placed under technical arrest today and held for investigation.

At 8:30 a. m. today, 18 hours after Cable was spirited away from his home by detectives, a squad of six Canton and Stark county authorities brought Cable and the woman to city jail.

Some Progress Made

Police Chief Ira Manderbaugh issued a statement saying the authorities "had made some progress" in the case.

Cable was booked on investigation, and Miss Ludwig was held under the original technical charge of suspicion on which she was booked Monday. Police court officials said the two can be held for 72 hours under the technical charges placed against them.

The sensational new developments came one week to the day after Mrs. Rose Cable, 48, Cable's socially-prominent wife, and mother of two children, was felled by a shotgun blast fired through the breakfast room window in the Cable home in a fashionable section of Canton.

Rushed Into Jail

The two in custody were rushed into the jail while reporters and photographers, anticipating an announcement, assembled outside the office of Chief Manderbaugh, on the second floor of the police department building above the jail.

No one was permitted to question either Cable or Miss Ludwig.

The man, a well-to-do contractor, was placed in a cell some distance from the jail entrance, where he could not be seen by newspapermen.

Miss Ludwig was placed in the

Political Candidates Must Post Cash Fee To Run Under New Code

(International News Service)

HARRISBURG, March 18.—Starting next September, political candidates will be required to back their campaign hopes with hard cash, and, in effect, wager that they will poll from two to five of every hundred votes cast.

This provision, intended to curb ballot-crowding and prevent unnecessary discarding of voting machines, is one of the most important features of the new election code which the Earle administration has presented to the legislature. The complete code, as summarized by Secretary of the Commonwealth David L. Lawrence—also Democratic state chairman—will "insure free, honest and fair elections" and make secure "the sanctity of the ballot box and voting machines."

Must Put Up Fee

By requiring advance pooling of fees, the new code will prevent free-for all contests for party nominations and eliminate conditions which, in the past, have forced many communities to supplement voting machines with paper ballots, or use paper ballots exclusively while machines stood idle.

The proposed graduated scale of

Controversy Rages Over Justice Maxey

(International News Service)

SOMERSET, Pa., March 18.—A storm of controversy raged today about the figure of Supreme Court Justice George W. Maxey, following his acquittal of State Trooper Anthony Sanute, charged with an alleged "third degree" killing of elderly Frank C. Monaghan, Uniontown hotelkeeper. Judge Maxey ordered Sanute freed when the jury in the case failed to reach an agreement after hours of deliberation.

Judge Maxey's action, which Special Prosecutor Charles J. Margiotti termed "the greatest miscarriage of justice in Pennsylvania history," served to shunt into the background for the time being the case itself while attention was focused about the figures of the supreme court justice and the commonwealth's attorney general.

Rumors Develop

Rumors flew thick and fast as to what might happen now following the sensational closing of the second of the "third degree" trials. Chief among theme were:

1. The attorney general, it was said, might resign unless Judge Maxey is withdrawn from further consideration of the "third degree" cases.

2. Judge Maxey may institute contempt of court proceedings against the attorney general following his trenchant statement against the judge for freeing Sanute.

3. The action of Judge Maxey in ordering a jury, which was reliably reported to have stood 9 to 3 for conviction, to free Sanute might precipitate a state-wide judicial crisis.

Maxey Silent

Judge Maxey himself, however,

A social session followed at the close of the program, games of various kinds being enjoyed by those present for the occasion.

VIVID CHAPTER IN OCEAN HOPS BEING WRITTEN

The airplanes over this 2400-mile expanse of water were "jammed."

Amelia Earhart, on the first leg of her projected round-the-world flight, passed two giant Pan American Airways Clipper ships.

These were the Hawaiian Clipper, routinely carrying six passengers to the islands, and the Pan American Clipper, enroute to Auckland.

Both of these ships left Oakland shortly before the aviatrix took off.

Jury Considers Case 21 Hours To Reach Verdict

Esposito Will Be Transported Back To Canadian Line By Authorities

TWO OF JURORS FOR CONVICTION

Agreement On Acquittal Finally Reached At 11:30 O'Clock Today

Twenty-one hours after the jury took the case, Rocco Esposito was found not guilty of the murder of Francesco Romeo. The jury in Lawrence County court returned its verdict at 11:30 o'clock this morning. It took the case at 2:30 o'clock Wednesday afternoon.

The length of time taken to return a verdict is thought to be a record in Lawrence county murder cases. The reason for the long period was due to the convictions of two jurors who felt that a conviction of some kind was justified. On the fourth ballot taken Wednesday afternoon the result stood nine for acquittal and three for conviction. On the fifth ballot the result was ten for acquittal and two for conviction. This was about supper time Wednesday evening.

Debate All Night

All through the night the jury debated the evidence, taking ballots at intervals with the two still unconvinced. About eleven o'clock this morning the final ballot showed an unanimous acquittal verdict.

When the verdict was announced by Foreman William J. Quinn there was a demonstration in court room number two. Many of the spectators broke out into applause which was quickly hushed by the court crier's gavel.

The calm demeanor which has marked Esposito since his return from Kirkland Lake, Ontario, in January, cracked when he realized that he was acquitted. As the jury passed by him in the corridor he shook hands with each of them, but he was unable to speak. Tears coursed down his face and he finally gave up the attempt to speak.

"I Am So Happy"

Later when he had recovered composure he was asked how he felt about the verdict. A wide smile covered his face and he said, "I'm so happy I can't talk."

Technically Esposito is still in

There's never much you can do with March, he's a blustery flustery sort of a guy, one day he blows like a grampus in chase, one day its warm and its balmy and dry. One day it rains like the tail of a flood, next day you freeze as you hurry along. The one thing on March you can always be sure, is simply that you will most always be wrong. He blusters and mutters and blows his cool course, howling and whining the day and night through, but who cares for that April follows him soon, with sunshine and spring, weather's just forty two.

CHRYSLER WILL ASK ARRESTS

Attorneys Will Press Action

Statement Is Made By Vice Pesident Of Corporation This Afternoon

SIT-DOWNERS FAIL TO LEAVE PLANTS

By JAMES L. KILGALLEN
International News Service Staff Correspondent

DETROIT, March 18.—The Chrysler corporation has directed its attorneys to demand the arrest of the 6,000 sit-down strikers who are holding possession of the company's eight plants in defiance to a court injunction.

B. E. Hutchinson, vice president of the corporation, made this statement today shortly after he returned from New York where he conferred with Walter P. Chrysler, president and chairman of the board.

The "deadline" for the strikers to vacate expired at 9 o'clock yesterday morning.

At the same time the Detroit board of commerce appealed to Michiagn members of congress to put an end to the sit-down situation here.

"Detroit is swarming with imported organizers, agitators and labor racketeers," Harvey Campbell, vice president of the board, said in a communication addressed to Michigan's congressmen, as well as to all members of the house and senate judiciary committees.

POLITICAL CANDIDATES MUST POST FEE

(Continued From Page One)

fees ranges from $2,000 for presidential candidates to $100 for candidates for borough and township nominations. For those seeking party nominations for governor, lieutenant governor, state treasurer, auditor general, U. S. senator, or supreme and superior court judge the ante will be $500. For congressional and county or district judgeship candidates the starting fee will be $250 while candidates for state senator, state representatives and city and county offices can enter for $250.

Will Have Chance Of Refund

Fees thus filed will revert to the state if candidates for state-wide offices fail to poll two per cent of the highest vote cast for a state office at the election. In the case of other candidates, the fees revert to the counties if the candidates cannot attract five per cent of the highest vote.

Another provision intended to preserve the full usefulness of voting machines, while remedying existing weaknesses in the election laws, will restrict independent tickets. Candidates who receive Democratic and Republican nominations will be barred from running on independent tickets and no candidate will be allowed to run on more than one independent ticket.

Other provisions of the code, introduced in the house by Reps. Samuel A. Weiss, Allegheny, and Benjamin Long, Philadelphia, include:

Extend Voting Hours

The hours of voting on election days are extended to 9 p. m. instead of 7 p. m., at present, and one clerk is required to be appointed in voting machine districts to handle voters' certificates.

For odd-numbered years, the date of the primary is advanced from the third to the second Tuesday in September, adding one week to the time in which counties can prepare ballots and voting machines for municipal elections. The dates for filing petitions, objections and withdrawals are changed for the same purpose.

Additional penalties are provided for violation of election laws, including a penalty for "stuffing" pay envelopes with political propaganda.

Provisions governing assistance to voters, procedure of election officers on election day, special elections, official voting residencies, voting machines and election contests are clarified and brought up to date.

custody. He was discharged from the custody of the Lawrence county courts but he will not be free to return to Kirkland Lake until the immigration authorities make the necessary arrangements. When he was brought to the United States by Investigator Frank Costa he was given into the custody of the American authorities by the Canadian authorities. The United States authorities must now see that he is returned to Canadian soil across the line from Buffalo, N. Y. This will probably happen today or tomorrow so that by Sunday or Monday Esposito should be back with his family in the little village five hundred miles north of Toronto.

The verdict today closes the murder case of Francesco Romeo, which occurred at New Castle Junction October 7, 1906. Following the murder Dominick Caio was arrested and tried but was acquitted. A search was made for Rocco Esposito but he was never apprehended. Some months ago the Pennsylvania Department of Justice learned of his residence in Kirkland Lake, Ontario, and Investigator Frank A. Costa went for him.

Clifton McCool and Harold Tibbett of Bradford, Pa., left for their home this morning after a short visit with Dr. and Mrs. Walter C. Kissinger, East North street.

FIRST LAP OF WORLD FLIGHT IS COMPLETED

(Continued From Page One)

her speedy Lockheed-Electra plane—the so-called "Flying Laboratory"—and said:

"It was a perfect flight."

America's famed "Lady Lindy" shook her tousled-hair and clasped hands with her three male companions—Paul Mantz, F. J. Noonan and Captain Harry Manning—and said:

"Thanks, boys, for your swell cooperation."

Mantz will bid adieu to Miss Earhart here. Noonan will continue with her to Howland Island, her next stop, while Manning will go as far as Darwin, Australia, from which point the aviatrix will continue on alone.

Miss Earhart circled the field here twice before landing. She flew over Honolulu a few minutes before at an altitude of 1,500 feet.

It was day-break as she landed.

Miss Earhart disclosed that she landed exactly five minutes before the "time schedule" she and Montz—who is her technical adviser—mapped out as they took off from Oakland.

Racing The Sun

Honolulu, T. H., March 18.—Racing the sun, Amelia Earhart, America's "first lady in the air," neared Honolulu today on the first lap of her spectacular flight around the world.

Miss Earhart drove her sleek plane, an $80,000 "flying laboratory" westward over the sparkling Pacific at terrific speed—so fast, in fact, that she had to "put on the brakes" so as not to beat old Sol to the Hawaiian Islands.

She did not want to land at Wheeler field until daybreak, but a tail wind, whipping her ship along about 30 miles an hour faster than she anticipated, carried her so near her initial goal that she throttled down and almost coasted under the right moon that reflected her place on the gentle swells of the great western ocean.

Leaves California

Leaving the mainland (the airport at Oakland, Cal.) at 4:37 p. m. yesterday, the gallant Miss Earhart soared out over the historic Golden Gate, the entrance to San Francisco Bay, and headed west. She rapidly gained altitude and soon set her course for Honolulu at about 8,000 feet with a speed of 170 miles an hour.

Rocketing along the 2,400-mile hop to Wheeler field here, Miss Earhart overtook two other adventures of the Pacific air lanes—two Pan American clipper ships.

About 400 miles off the California coast she whizzed past an exploratory clipper, bound outward to blaze the way for service to Australia in the near future. Then, 900 miles on her way, Miss Earhart passed the Hawaii clipper, outward bound to Manila by way of Honolulu and other Pacific islands, with passengers and freight.

It was an epic of fast moving progress which gave pause even to the intrepid aviatrix and her three aides, Harry Manning, radio-man and co-navigator; Fred J. Noonan, navigator, and Paul Mantz, technical adviser. The trio will drop off along the way and leave Miss Earhart alone at Australia for the rest of the great jaunt around the world.

Radio reports from the plane revealed that Miss Earhart and her three male companions were smiling and joking over an "early breakfast" of hot chocolate and turkey sandwiches.

Mantz took over the controls for a brief moment while Miss Earhart had breakfast.

The numerous gadgets in the "flying laboratory" were working perfectly, according to the messages which flashed through the air at regular intervals from the control cabin of the plane.

As she entered the 'home stretch' of her initial hop, Miss Earhart soared to an altitude of a little more than 8,000 feet.

Through the broken clouds, she could see the moonlight playing upon the blue Pacific below—perfect flying weather.

She drew far ahead of the two giant planes of Pan American which took off ahead of her yesterday.

Officials of the line refused to allow their planes to "race" with Miss Earhart.

Nabbing a Striker

Oliver Ommundsen, 22, is said to have hurled a rock at some cars carrying non-union workers of the California Packing Company, at Alameda, Cal., to their homes through the picket lines of the striking union warehousemen. The jail turnkey said the two were not sufficiently close together to converse.

All the authorities in the party of six declined comment, except for a disclosure by Clark that the two had been questioned, "somewhere out of the city."

Maintain Innocence

It was learned, however, from one of the members of the official party, who declined to be quoted, that both Cable and Miss Ludwig, throughout the long hours of questioning, remained unshaken in their declaration of complete innocence of any knowledge of the crime.

Cable was taken from his home where he was in bed suffering with a severe chest cold at 2:30 p. m. yesterday, and the woman from the home of the detective in whose custody she was placed yesterday at midnight.

Police Chief Manderbaugh issued the following statement:

"The prosecuting attorney and the detective bureau have been working strenuously on this case for 18 hours straight and have made some progress.

"We cannot give you details of their operations, because it might interfere with solution of the crime. That is all I can tell you at this time, but as soon as there is a development of importance I most certainly will pass it along to the public."

Although the directions the king's proctor will seek remained a closely guarded secret, legal circles interpreted reopening of the case as indicating someone else may be seeking to intervene in the case.

Disclaims All Knowledge

London, March 18—Through Hermann L. Rogers, her former Riviera host and now a guest with her at the Chateau De Cande near Tours, Mrs. Wallis Warfield Simpson today disclaimed all knowledge of re-opening of her divorce case by the king's porctor here.

By telephone from the magnificent chateau where Mrs. Simpson is now in residence, Rogers said:

"This is the first time I have heard of any attempt at intervention on behalf of the king's proctor or anyone else.

"Mrs. Simpson, so far as I know, was not even advised that the page of the Somerset house registry book containing her entry is not open to public view."

had little to say concerning the stir occasioned by his action.

"I will have nothing to say on that matter for some time, if at all," he said, as he left for his Rolling Rock Country club. "I came here to give this man a fair and impartial trial, and I feel that is what he has had.

"I attach no importance whatever to what Mr. Margiotti may think—and I believe the general public feels likewise."

From members of the defense staff for Sanute, however, came a spirited defense of the judge for his action in freeing the state trooper and an equally bitter attack on Margiotti.

Most outspoken among them was Attorney Joseph Levy, local counsel for Sanute.

Margiotti's conduct, he said, "was indefensible as a prosecutor, whose duty it was to elicit the truth and to do justice."

GOVERNOR, DETROIT MAYOR, AND POLICE HALT STORE SIT-DOWN

(Continued From Page One)

department store. So did Mayor Frank Couzens and a force of asistant prosecutors.

Policemen encircled an entire block wherein the store is located. They diverted traffic and kept the crowds moving. For a time there was some tension.

Question Sit-Downers

Inside the store the authorities questioned the sit-downers. Some of them, it was asid, indicated they were compelled against their desires to strike. Officials of the store were also interrogated. This went on for hours with the authorities seeking to learn who "pulled" the strike.

At Mayor Couzen's suggestion, Frank X. Martel, president of the Detroit Feleration of Labor, came to the store and acted as spokesman for the strikers. Martel also talked with the management. Finally Martel told the strikers to "go home" that he would negotiate with the management on Monday.

And so, shortly before 2 a. m. the 43 sit-downers left the store and the strike was over.

To End Sit-Downs

Later Martel said to the newspaper men:

"As president of the Detroit Federation of Labor, it is my purpose to try and end these sit-down strikes in Detroit. We have an understanding to this effect with the governor and the mayor."

Martel evidently meant the smaller sit-downs.

The big question engaging the attention of all observers of the strike situation is what further action, if any, the Chrysler Corporation will take to force the strikers to vacate the eight Chrysler plants.

Judge Allan Campbell who issued the injunction calling upon the strikers to evacuate the Chrysler factories has had no comment to make on their refusal to do so.

The strikers posted notices at the plants reiterating their determination to hold the properties until the strike issue is settled.

street. His nose was fractured and his ankle bone shattered. On February 13, he died in the New Castle hospital.

Pedonesi and Traci were returned from Cleveland, O., and at the trial last week Pedonesi testified that he alone had engaged in a fight with Policeman Dukes.

While Traci is charged with murder in the first and second degrees and also manslaughter, the line of questioning of the jurors by the commonwealth indicates that they will not press the first degree charge. In the Pedonesi case Judge Braham removed the first degree element from the case.

Traci is being tried in court room number one before Judge James A. Chambers.

Council Opposes Legislative Move

Council met in the city building this morning and by resolution expressed opposition to Pennsylvannia house bill 602 which the house already has passed and will come before the state senate.

The bill favors placing of the fire departments in Third class cities under the jurisdiction of the department of public safety. The fire department here is already under the jurisdiction of the department of public safety.

Council today took the position that were the bill adopted into law it would be another move robbing New Castle of home rule and interfering with efforts to local officials as to how best legislate for the city.

Copies of the resolution will be sent to State Senator Eroe and Representatives Kelso and Preston.

PROGRAM AND TEA FOR CONSERVATION GROUP

Mrs. A. H. Davis, Jr., Leasure avenue, received members of the Conservation department of the Woman's club in her home Wednesday afternoon for a delightfully informal meeting.

An especially interesting program that proved most instructive, claimed attention of the assemblage when Mrs. W. H. Hanger gave for the first feature an illustrated talk on "Brides". She related many fascinating phases concerning the brides seen in this vicinity, at different seasons.

Mrs. Harry Gormley, who recently returned from the south, told of "Southern Gardens" and illustrated with kodak pictures and circulars. She visited a number of famous gardens while in Florida, Alabama and other places, which provided a splendid opportunity for comparisons.

Following, tea and dainty refreshments were served from a table attractively decorated in seasonal suggestions. Mrs. C. H. Fischer poured and she had as her aides co-hostesses Mrs. W. L. Cosel, Mrs. E. U. Snyder, Mrs. O. P. Fox and Mrs. L. W. Grossman.

Mrs. C. F. McDowell of Fairfield avenue will receive the department members at her residence Wednesday, April 21.

A similar party is scheduled for Wednesday, March 31, at the club house, with Mrs. T. E. Nolan hostess.

Mrs. Bessie Pitzer, chairman of the lunch arrangements, served from a table attractively appointed in two tones of green, combined with white, reminding the attending guests it was St. Patrick's Day. She was assisted by an appointed committee of aides.

TEMPLE ISRAEL SCENE OF JOINT ASSEMBLY

Juniors and seniors united last night in Temple Israel at their annual meeting with the senior section of the National Council of Jewish Women acting as hostesses to the younger women.

A Passover prayer of gratitude for the privileges of equality and liberty enjoyed in this land of freedom, was offered by Mrs. Mont Blau. Mrs. Morris, senior advisor, after reviewing junior-senior relationships, introduced Florence Safier, junior president, who presented the program. A very clever skit with Audrey Bridenbaugh, Gladys Brown, Gladys Gibson in the cast, followed.

The privilege of hearing Mrs. George Short, who represented several Lawrence county clubs at the 12th conference on the Cause and Cure of War held in Chicago, was the feature of the program. She explained in detail the neutrality legislation as included in the Pittman-McReynolds bill recently passed by the senate, pointing out the weakness of the bill and what might be done to strengthen it so that it will help keep the United States out of a foreign war.

During the business session committee reports were heard. Mrs. Conn announced that two cartons of canned goods had been sent to the flood sufferers through the local Red Cross. Mrs. Leonard Reinhart reported that Rabbi Diamond will visit Polk next week to conduct a Passover service, and that the Ellwood City council is sending Matzos to the patients. Federation penny strips were distributed. Members were informed of the details of adult education classes under W. P. A.

The fund raising project this year will take the form of a fashion parade and bridge in Temple Israel, March 22, at 8 o'clock, when attending guests will see a display of the last word in spring fashions. Members are urged to arrange tables for bridge. The proceeds will be used for annual contributions to the local House of Shelter, tubercular hospitals and children's homes.

Guests present were then invited to the tea table and served by the hostesses in charge: Mesdames Mont Blau, Alvin Shenkan, Hyman Wolf, Edward Fisher, Jack Kulkin, Norman Ehrlich, Gordon Stone.

FAMILY CELEBRATION AT J. B. FRASER HOME

One of the loveliest family dinner parties of the month, was the one given in honor of John B. Fraser, by his children, as a medium of celebrating his birthday anniversary, on Tuesday evening.

At 6 o'clock, in his home at 607 Highland avenue, the honoree was taken completely by surprise when the group invaded and announced their purpose.

When the excitement had subsided, baskets were unpacked and a delicious full course dinner was served. The dining table was attractively arranged with flowers, and a large birthday cake. Places were laid for Mr. Fraser, and wife, and their nine children at the main table, and grouped about smaller tables appointed in hues of green and gold were the daughters-in-law, sons-in-laws, grand-children and one great grandchild. Aides in serving were Virginia Hay and Josephine Anderson.

A social period ensued with conversation, chat, and music providing entertainment, and a family picture was taken as a special feature. Before the guests departed, they presented Mr. Fraser with a collection of handsome gifts. He responded in a most appropriate manner.

Out of town guests were Mr. and Mrs. James States of Punxsutawney, and Mr. and Mrs. Forest Fraser, of Youngstown, O. The children present included Mrs. States and Mr. Frazer, and the following from this city; Mrs. James Davis of South Mill street, Mrs. Earl McCormick of Hillcrest avenue, Mrs. Gilbert Dodds, of Highland avenue, Mrs. Harry Irwin, of Beckford street, Arnold E. Fraser, of Florence avenue and Dean and John Fraser, at home.

The tables were decorated appropriate to St. Patrick's Day, green candles in white holders guarding the floral centerpiece, and other details further suggested the same theme. Special guests included Mrs. Jean Maxwell and daughter Hazel Ann of Struthers, O., and William Canfield of Oil City.

The regular lodge meeting followed, and in conclusion a social period featured. In two weeks the regular meeting will take place.

Later the guests adjourned to the church where a sermon, one of the preaching mission series, was given by Dr. J. R. G. McKnight, president of the Reformed Presbyterian seminary, Pittsburgh.

And still later a business meeting was conducted in the parlors when the following officers were re-elected:

A full course luncheon was served at 1 o'clock, and at 3 o'clock the president, Mrs. Mary Ray, conducted a business meeting.

The hostess prize was awarded to Mrs. Mary Shaner, and as a new member the women welcomed Mrs. Maude Coulter. Little Florence Shaner pleased with a guitar and vocal solo, giving two selections, "Whispering Hope" and "Onward Christian Soldiers". BALDWIN TO RETIRE

PRIME MINISTER STANLEY BALDWIN, too must properly be included among the great opportunists produced by the turbulent state of world affairs. Announcement has been made from London that he will resign following the coronation of the new King.

Mr. Baldwin has timed his exit with rare discernment and will retire with his prestige in full bloom, his status as a statesman secure and with a high place in history assured. It would have been under far less propitious circumstances that he would have faded from the picture if he had yielded to the pressure for his resignation some months ago.

At that time, Mr. Baldwin's star was definitely on the decline. Mussolini had treated him contemptuously in the Ethiopian business and had defied with impunity the power of the British Navy. Herr Hitler was hardly more considerate, and it seemed for a while as if the might and the glory that were England's belonged to the history of the dead past.

Subsequently, however, a turn for the better came in the fortunes of the Chancellor. He eased a King from his throne and again became a man to be reckoned with. He launched Britain upon a new drive for military supremacy and demonstrated in other ways that he was the dominating force in the formulation of governmental policies.

Now, while at the peak, he will retire with an earldom as the reward of virtue, of dogged determination and a dash of good luck. In following this course he is judicious. Too many world leaders cling to the heights after their day is done, only to be pushed gently over the edge by the restless foot of a rival.

THEY DON'T ALWAYS PREFER BLONDES

The pitfalls that generalizing may lead to are well illustrated by the pronouncement of Mrs. Nellie Brooke Stull, founder of the National Widow and Widowers Club, on the subject of marital preferences. Her knowledge of men's likes and dislikes is based on her purported success in bringing 850 couples together for a trip to the altar. It is her belief that what men really want is a girl who "looks like a blonde, talks like a brunette and acts like a redhead."

If she means that males are attracted by a combination of decorative looks, intelligent talk and vivacity, there may be some merit in her conclusion. Her "typing" of blondes, brunettes and redheads, however, is lamentably outdated. The idea that all redheads are dizzy, that all blondes are beautiful but dumb and that brunettes lack something in ornamental appeal cannot be entertained by anyone with eyes to see.

ANOTHER SCRAP OF PAPER

The Non-Intervention Committee agreed about a month ago to clamp down on foreign meddling in the Spanish civil war. At the time this agreement was reached—many, many months too late—an estimated 95,000 foreigners were among the embattled forces in the desolation of Spain.

But this agreement, as might have been suspected at the time, was just another scrap of paper, entered into for the sake of appearances, not with a view to permitting the Spaniards to work out their own destiny through the slow and bloody processes of attrition.

Included among the new rebel forces now engaged in a siege of the city, according to reports from Madrid, are 30,000 Italian soldiers, constituting four divisions, each under command of an Italian general whose identity has been established by the Loyalist high command.

This news represents just one more development establishing the status of Spain as conquered territory if the rebels win.

MAPLE SYRUP

There is a romance about the production of maple syrup with which many Lawrence county people are acquainted—either by participation or by hearsay. There is great excitement and activity in every maple sugar camp during that brief period from the time the sap first begins to run, until the syrup and sugar are ready for market.

It was noted in a news story a few days since that Spring was surely here, for a large stock of maple syrup made its appearance in the market. Genuine maple syrup is a "treat" which none can afford to miss—a delicacy which only those who have tasted it can really appreciate.

Vermont and others of the New England states are well known for the variety of maple syrup and sugar which they produce. Last summer the maple syrup industry of Western Pennsylvania received due recognition and, undoubtedly, a boost in sales, through reference to the matter by Governor Alf M. Landon in his opening campaign speech at West Middlesex. Mr. Landon, in a speech broadcast from coast to coast and published in full in most of the country's metropolitan newspapers, said that he sent each year to Crawford county, his boyhood home, for a year's supply of maple syrup. And, apparently, he was satisfied that the product was just as good as ever.

Why travel? In youth you don't learn anything, and when you get older you long for your own bed.

The Parent Problem

By Garry C. Myers, Ph. D.

LEADERSHIP IS PRAISED

It is Tuesday evening, 8:45 p. m. I have just returned from a school gymnasium near my home. A young preacher, four young business men and a group of boys in their early 'teens are playing basketball. More than enough are there for two teams, but all are having a chance to play part of the time. They are just playing for fun; and what fun they are having! The young preacher is a little fat, but he has skill and knows the game. He is a hero to the boys.

At very low cost, the Sunday school has rented this school gymnasium for one evening a week. Incidentally a few boys' classes have increased their membership and regularity of attendance. While there is not yet a hard, fast rule, it is understood that to have the privilege of the evening at the gym presupposes attendance at Sunday school. As one boy says, "It would be cheap not to go to Sunday school now."

Properly the aim has been to appeal first to the boys of the parents of the church. This is a good "remnant" to work upon. It seems to me that the Sunday school naturally should make its strongest appeal to these children. With their home background they have a vast deal of good material to build upon, as a rule.

Fine Service For Boys

Some churches are so fortunate as to have a gymnasium. For most others there could be made available a gymnasium of a school or Y. M. C. A. In many a Y. M. C. A., during basketball season, there are scheduled several games between church teams every evening. Generally the organizers of these teams are fine young men who like and understand boys, some being athletic leaders. I can hardly think of a finer service for building boys through the Sunday school. Whether athletic teams are organized or not, I have a great deal of admiration for the many splendid young men and women who give their Sundays and occasional week days to boys and girls in the Sunday school. One of these fine men is Carl V. Weygandt who, until he became chief justice of the supreme court of Ohio, taught a large group of high school boys every Sunday.

In some communities the public school authorities are not accustomed to have the school gymnasiums used by groups outside of school. But most are eager to make this service available when they see its value. Here is where the proper leadership in the church counts.

YOU HAVE AN INHERITANCE

Search your pockets, look through your purse—how much money did you find? . . . Just a few pennies, just a few silver coins.

Take a look at your bank book—how large is the balance? . . . Rather small, isn't it? Pretty close to the bottom. Just one long putting in and taking out.

You haven't much property. You don't ever expect to be rich. You haven't a rich uncle anywhere in the world who thinks fondly of you and intends to leave you all his money . . . Far as money is concerned, you haven't much, never expect to have much . . . You're not an heir!

But you're mistaken . . . You ARE an heir . . . Your inheritance is great, greater than you sometimes remember and realize.

No man stands isolated in this world. He may be lonely, but he can never be alone . . . Back of him stand all those hundreds of millions of men and women who have lived before. They push enormously behind him and he stands on the edge of a great army of human beings who have come into this world and marched a few paces and moved away again . . . All their laughter, all their tears. All their courage, all their fears. All their strength and weakness, faith and bitterness, glory and shame, joy and agony, delight and boredom, energy and lethargy—all they did or failed to do, all their ambition, achievements and successes make the inheritance that is ours today.

We never knew them and we forget them too easily, we forget their lives so superficially different from ours are essentially the same . . . They suffered as we do, they were bewildered as we are, and the wisest of them learned—as we, too, must learn—that the greatest wealth a man can have is in his heart, not in his pockets. The courage to keep living, the faith to keep doing, the power to keep going, these are the imperishable riches.

Only the poor, foolish cynics think otherwise—and the cynics are the forlorn disinherited of the race.

OBEYING INSTRUCTIONS

The mayor pressed a button on his desk and the office boy entered.

"Here," said his honor, "are a number of instructions telling us how to run our city. See that every one is carried out."

And the office boy, gathering them all in a big waste basket, did so.

Good Taste

Reg. U. S. Pat. Office.

By FRANCINE MARKEL

DEAR MISS MARKEL—I have always been taught that, when greeting a friend, I should mention her name thus: "Good morning, Mrs. Smith." Now I learn that this method is not so good, since it enables peddlers, venders, etc., to exploit her. What is your opinion?
CLARA J.

Answer—The hotel industry has solved this problem satisfactorily in this way: Whenever a guest, especially a woman, enters an empty elevator, hallway, etc., the attaches greet her by name. This adds the personal touch, thus flattering Mrs. Smith.

But if there is a stranger within earshot, the inviolable rule of the first-class hotel is that the employe refrain from mentioning the guest's name.

This is an excellent rule which I highly recommend for general use. So, when next you meet a friend in a public place crowded with strangers, do not broadcast her name to the multitude.

When you are under the protection of your own or a friend's roof show cordiality by adding her name to your greeting of each guest.

Inflation Is Now Milder.
Supreme Court Justices Older.
Railroad Investigation Goes On.

By LESLIE EICHEL
Central Press Columnist

INFLATION—How serious is it?

"Milder than in the pre-depression period despite four continuous years of expansion," says the Alexander Hamilton Institute. "Index in 1936 rose to 92.1 from 74.3 in 1935—as against low of 8.5 of the depression in 1932. Interruption of the current movement is possible this year, but ultimate collapse of the movement is not likely before 1939 or 1940."

* * *

AGE OF JUSTICES

Is the average age of supreme court justices rising?

"When the supreme court was first established in 1789 the average age of its six justices was just under 50 years," says Col. Leonard P. Ayres, noted bank economist. "It was not until 36 years later, in 1825, that the average age of the justices mounted to above 60, but since then it has almost continuously fluctuated in the middle 60's. There were two brief exceptions to this rule, first in the 1830's, and again in 1846, when the average fell below 60. During this early period in the history of the court the number of justices was increased from the initial six to seven and then to nine."

WHEELER INVESTIGATION

Will the investigation of railroad financing by the senate committee on interstate commerce bring any results?

Wall Street bankers exerted all possible pressure to prevent an additional grant of funds—$150,000—but failed. This investigation, under Senator Burton K. Wheeler of Montana has been so sensational in its aspects that it may start a presidential boom for Wheeler. Max Lowenthal, brilliant young lawyer, is, however, credited behind the scenes with digging up the facts, which show that the public had little chance in any of the deals brought up.

Now that the investigation is to go on, with ample funds, there is a strong possibility of severe restrictive laws for railroad holding companies. The investigation so far has shown that the Van Sweringen manipulators got around interstate commerce commission jurisdiction through a series of interlocking holding companies.

* * *

INSIDERS

Were there insiders who benefited?

Yes. J. P. Morgan & Co. allocated shares at half their market value to friends and others who could help the firm. Among the friends were lawyers who fight any restrictions on this type of financing. The lawyers were headed by John W. Davis, the Morgan attorney.

RELIEF IN CANADA

Is Canada also having relief and wage troubles?

Yes. We read this in the Toronto Star: "Only 50 cents a week to feed family of six; dad works full time. Creditors take most of $17 pay. 'Indictment' against many employers. . . . The family never has been on relief, the father preferring to work at a wage totally inadequate for the support of his wife and four children. . . . 'It is a fair example of the starvation wages being paid to some workers who are not on relief,' a social worker said. 'The family is not eligible for relief, since the father works full time, and they do not want it. We have been watching them go steadily downhill since 1931, and today they are in a simply hopeless position'."

AUTO PRODUCTION

Did auto production in 1936 exceed its record high in 1929?

No. Production in 1936 totaled 4,455,000 cars, as against 5,538,000 in 1929. Depression low was 1,371,000 in 1932. The year 1936 was exceeded only by 1929.

CINEMA HEROES

I often wonder when I go
To see a moving picture show
Just how the hero in the play
Contrives his monthly bills to pay.

He has a most expensive car;
He smokes the costliest cigar,
And handsome clothes are his to wear
The while he runs his love affair.

He's at it morning, noon and night,
For weeks until it's settled right.
He'll sail for Europe any day,
Nor wonders what his boss will say.

The maiden calls! Away he goes!
As if in motion picture shows
The hero couldn't raise a sob
Who had to think about his job.

My Nellie views with eyes aglow
The hero of a picture show
And wishes I would only be
As thoughtful and as good as he.

And with a chuckle I reply:
"At making love I think that I
Could be a dashing hero, too,
If that was all I had to do."

A NEW ANGLE

I had the pleasure recently of lunching with an international diplomat. The conversation ran on after luncheon for nearly two hours because it was very interesting. The gentleman has a keen knowledge of European politics, with its wide ramifications and he gave us a very new slant at English politics.

"The English cabinet," he said, "is engaged in the business of dividing the world as much as possible today, not on the line of rationalism, but on the lines of capitalism and Communism. England is helping the Communistic Party, the so-called government party of Spain. Why? Because she wishes Spain to remain Communistic. Germany and Italy are frankly nationalistic and capitalistic. England in reality is capitalistic, but determined to divide Europe, as much as possible into the two classes of socialism and capitalism. Sons of the cabinet officers, for instance, are very prominent today in the leftist government of Spain, and that seems strange to the world."

Speaking of United States neutrality and the laws passed by the congress, at the instance of the president, he said that they were only scraps of paper if the people of the United States ever were aroused to a fighting spirit because of the impositions of any foreign power.

"England," he said, "has never failed to stir up strife everywhere. Who benefited by the strike of the longshoremen on the Pacific coast? Not American ship owners; not American workmen; not the long-

Ohio Congressman To Present Bill Embodying Provisions Agreed Upon

(International News Service)

WASHINGTON, March 18.—Rep. Crosser (D) of Ohio will introduce a bill in the House embodying the new pension legislation for 1,500,000 railroad workers agreed upon today by the railroads and the 21 standard railroad labor unions.

Crosser is auther of the railroad retirement act which is pending before the supreme court for a ruling on its constitutionality. The new retirement plan will be a substitute for the one now in litigation. It is understood the railroads will drop their fight on the present railroad retirement act as a result of the agreement.

Principal provisions of the new plan are:

A total tax of five per cent of the payroll, instead of the present seven per cent; one-half to be paid by the roads and half by the employes. The tax would apply only on the first $300 of any employe's pay in the month. The tax would increase gradually to seven per cent after 12 years.

The plan would be administered by the railroad retirement board, as at present, and the method of computing an annuity is the same as in the existing law.

An employe is eligible to retire voluntarily at the age of 65 years, but may retire at 60 after 30 years of service, with a reduction in the annuity rate of one-fifteenth for each year he is under 65.

Leslie Howard says Luckies are "tops" with his throat

"Years ago, as an ambitious young actor, I was impressed how well my throat liked Luckies and how well they suited my idea of a perfect cigarette. That impression still stands. In my recent tour of 'Hamlet', with its many performances each week and the attendant tax on my throat, I have been convinced anew that this light smoke is both delightful to my taste and the 'top' cigarette for an actor's throat."

Leslie Howard

An independent survey was made recently among professional men and women—lawyers, doctors, lecturers, scientists, etc. Of those who said they smoke cigarettes, more than 87% stated they personally prefer a light smoke.

Mr. Howard verifies the wisdom of this preference, and so do other leading artists of the radio, stage, screen and opera. Their voices are their fortunes. That's why so many of them smoke Luckies. You, too, can have the throat protection of Luckies—a light smoke, free of certain harsh irritants removed by the exclusive process "It's Toasted". Luckies are gentle on the throat.

HERE'S BETTER CONTROL of COLDS
Just follow this practical home-guide

To help PREVENT many colds. At the first sneeze or sniffle or irritation in the nose—quick!—put a few drops of Vicks Va-tro-nol up each nostril. This *specialized* medication is expressly designed for the nose and upper throat, *where most colds start.* Used in time, Va-tro-nol helps to *prevent* many colds—and to throw off head colds in their early stages.

To RELIEVE a cold sooner. Massage Vicks VapoRub briskly *on the back* (between and below the shoulder-blades) as well as on the throat and chest, *for 3 full minutes.* Then *spread a thick layer* on the chest. VapoRub's famous poultice-vapor action continues hour after hour—loosening phlegm, easing coughing, relieving irritation, and helping to break up local congestion.

Sickness from Colds Cut in Half!

The two simple steps outlined above, together with a few sensible health rules to build up and maintain resistance, are the basis of Vicks Plan for Better Control of Colds. In the biggest colds-clinic ever held—with 17,353 people as subjects—*Vicks Plan cut sickness from colds more than half!*

You'll find full directions for following Vicks Plan in your packages of Vicks Va-tro-nol and Vicks VapoRub

Fat Girls Get The Go-By—Slim Girls Win Men

Lose Fat The Easy Way—Without Starvation Diets, or Back-Breaking, Bending and Rolling Exercises.

Here's a way to get rid of ugly fat that works hand in hand with Nature. Millions of people are losing millions of pounds of flabby flesh and getting back slender figures, without the need of starvation diets or back-breaking exercises.

Medical science has discovered that one of the causes of too much fat lies in a little gland. It is the duty of this tiny gland to make about one drop and a half every day of a vital fluid. This helps the body "burn" up food and excess fatty tissues just as a good draft of air helps the furnace to burn up coal without forming "clinkers". If this little gland doesn't make this drop and a half of fluid every 24 hours, many people take on ugly fat.

Doctors correct this condition by feeding this little gland the substance it lacks—and Marmola Prescription Tablets are based on this same method. Millions are using them with success. They are prepared by a famous medical laboratory. Their formula is published in every package so you know what you are taking.

So don't waste time and money with starvation diets or back-breaking exercises. Go to your druggist today and get a box of Marmola. Try this simple, easy way to get rid of excess fat.

Kiwanians, Wives Banquet At Hotel

Speeches, Music, Give St. Patrick's Day Party Real Variety

HEAR ATTORNEY TELL CHANGES IN NATION

Kiwanis club members and their wives heard a speaker review "Twenty Years of Change in the United States" and enjoyed the entertaining contributions of club and outside talent when they attended a St. Patrick's Day party in The Castleton last night.

The affair proved to be one of the most successful social functions the Kiwanians have ever held.

Caldwell Speaks First

Attorney William J. Caldwell's short resume of changing life in the nation was the only serious note of the evening—and it was with interest and close attention that his audience followed his timely words.

He was just closing his remarks when he said:

"In conclusion, I am reminded of the motto of the Kiwanis club, 'We Build.' It is a motto of confidence and of hope."

"Our future as a nation," he went on, "will be molded for generations to come by the choices and policies which are even now in the making. In building for the future we must not forget one of the fundamental weaknesses of democracy. We must avoid at all costs the peril of mob rule. The tyranny of the masses is no less a tyranny because often invoked in the name of freedom. As a nation we have built so far both wisely and well. We dare not forget that eternal vigilance can alone preserve the foundations of our structure. One of our greatest problems may yet be to prevent the press, the radio and the newsreel, the wholesale channels of mass appeal, from falling into the control of dictatorial leaders either of the Right or of the Left.

"As individuals and service clubs we owe it to ourselves to safeguard well the treasures we have inherited."

Allen Night's Chairman

The address of Mr. Caldwell came early in the program. He was introduced by Lee E. Allen, chairman of the party committee, who a few minutes before had taken over the master-of-ceremonies role from President Thomas L. Paden.

Singing during and after the dinner was led by Chester P. Reynolds with Judy Sypher, one of the night's committee, at the piano.

Hit acts that brought heavy applause echoing through the room were the musical contributions of "The Tune Twisters," vocal trio led by Amil Lelenko, and the humorous talks of Orville Potter and James Mayberry. Another Kiwanian, Gilbert E. Long, favored with a violin number with Mr. Sypher as his accompanist. The closing act was a special dance number by the talented Miss Billie E. Glenn.

Mrs. Charles J. Callahan was the fortunate winner of the handsome prize awarded midway in the evening's program.

Dinner tables were attractive with St. Patrick's Day decorations, and the dinner was a delicious one.

The committee in charge included Mr. Allen, the chairman; Jesse N. Kerr, James Mayberry, William Langan, Mr. Sypher, and Junior Kiwanian Reid Shiner.

Case Of Woman Bank Employe Is Given To Jury

Second Bradford Bank Case Defendant Blames Suiciding Official For Condition

(International News Service)

ERIE, Pa., March 18.—Federal Judge R. M. Gibson today charged the jury trying Miss Hazel A. Benson, a discount clerk, on an indictment of 30 counts growing out of the alleged $1,300,000 shortage in the closed Commercial National Bank of Bradford, Pa.

A weeping, dejected figure, Miss Benson, second of the 11 defendants to be placed on trial, aroused the pity of both the prosecutor, John D. Ray, and her own attorney, A. J. Mitzbaugh. The frail, fortyish woman sat weeping as charge after charge of false entry was outlined to the jury.

Testifying in her own behalf in a voice so low it could scarcely be heard, Miss Benson placed the blame for her plight on Frank W. Calkins, assistant treasurer of the bank and treasurer of the Cunningham Natural Gas Corporation, who committed suicide when the scandal broke. She did as Calkins told her to do, she said, and had confidence that eventually the books would balance correctly.

Stanley R. Benton, 31, a note teller, the first to be tried, was found guilty on four counts of making false entries.

Even Ray conceded Miss Benson was a "pitiable sight" as he closed his case against her with the adjournment of court late yesterday afternoon. Mitzbaugh pleaded with the jury that a penitentiary term would probably kill the woman.

Again the defense pictured Calkins as the instigator of the plot. But Ray showed Miss Benson was heavily involved in the stock market and had been indebted to the bank for $18,000 when federal investigators took it over.

Husband Of Slain Woman Will Get Farm, Is Report

(International News Service)

STEUBENVILLE, O., March 18.—Samuel Secrist, whose wife, Eva, 38, was shot and killed by her neighbor, Joseph Veres, 65, will probably receive Veres' farm as compensation, it was indicated today.

A deed by which Veres, now serving a life term, conveyed the farm to his wife seven days after the shooting, was held invalid by Judge Carl Weinman. The effect was virtually to give the farm to Secrist who had won a $50,000 judgment against Veres as a result of the shooting, which culminated a long-standing feud.

Strike Employer Asks Injunction

WARREN, O., March 18.—The Ohio Leather company at Girard, 10 miles southeast of here, filed suit late Wednesday in common pleas court for an injunction asking the evacuation of its plant by 600 sit-down strikers.

Frederick H. Becker, plant manager, said the sit-down began Monday noon due to a false report that the company planned to lock out its employes.

Members of the Boot, Shoe and Leather Workers union which its members say is affiliated with the Committee for Industrial Organization, are demanding increased wages and "outside union" recognition for collective bargaining rights.

Judge Lynn Griffith said he would hold a hearing on the petition this afternoon.

Unemployment Fund Already At Big Figure

With Many Small Employers Delinquent, Fund Exceeds Expectations Now

BENEFITS START IN JANUARY, 1938

(Special To The News)

HARRISBURG, Pa., March 18.—Pennsylvania's unemployment compensation fund has passed the 25 million dollar mark, Secretary of Labor and Industry Ralph M. Bashore, administrator of the fund, announced today. This amount is $2,500,000 in excess of the total estimated by Governor George H. Earle last December when he called a special session of the legislature to enact unemployment legislation.

Further receipt of delinquent contributions may boost the fund in this state to more than $30,000,000, Mr. Bashore stated. Thousands of small employers are known to have failed to make a return.

Write Big Check

Over the week-end, the unemployment compensation division transmitted a check for $7,500,000 to the United States Treasury to be placed to its account for unemployment insurance. This is the largest single check yet made out by Pennsylvania's newest governmental bureau.

Unemployment compensation contributions at this time have been received from approximately 115,000 state employers. Secretary Bashore estimated that the present contributions will afford security to almost 2,000,000 workers against the rigors of loss of employment. No employes will be eligible to receive compensation before January 1, 1938.

"Practically every large employer of labor in Pennsylvania has recognized his responsibility under the unemployment compensation law and has mailed the required contribution to Harrisburg," Mr. Bashore announced. He added that the delinquents were mainly the employers of less than eight workers, some of whom do not know of their obligation under the compensation law.

"An intensive drive to inform all delinquent employers to make their contribution immediately will be launched today," Mr. Bashore said. Reinforced by personnel from the Harrisburg office, all county unemployment compensation field forces this morning began a canvas of every employer in the state to notify the delinquent users of labor that a contribution must be made. This canvas is expected to require two weeks. The officers furnished the county organizations from the Harrisburg headquarters of unemployment compensation have been specially trained for the work they are expected to accomplish.

Some Protests On Greyhound Bus Line Application

(International News Service)

PITTSBURGH, March 18—Protests were entered Wednesday by ten bus companies at a public service commission hearing before Examiner H. D. Hirsch against an application of the Greyhound Bus Lines, Inc., requesting permission to carry special charter groups in Pennsylvania.

James C. Brinton of Philadelphia, transportation engineer of Greyhound, and Ralph Gardner, faculty director of athletics at New Castle, Pa., high school, urged acceptance of the application. Gardner said such service was needed for trips by athletic teams.

LOCK HAVEN

Do you know that Lock Haven was a famous Indian center in pioneer days?

A large island, just east of Lock Haven, was an Indian settlement known as Great Island, where Chief Logan held his council fires. It was the furthermost frontier of pre-Revolutionary settlement, the site of Fort Reed, which was evacuated at the time of the great runaway and the Wyoming massacre. The site of the fort is marked by a monument opposite the site of the Clinton county court house in Lock Haven. The city was founded in 1834.

Noted Here And There In Other Newspapers

Three persons were injured and two automobiles damaged in an accident at the foot of the Tidewater hill, near Sheakleyville. A machine operated by C. H. Buell, of New Castle skidded on a slippery pavement, turned around and crashed into a car driven by Paul E. Davis of Hadley. Mr. Davis received a laceration above the left eye; his son, Paul Jr., and Genevieve Dick, both 14, suffered broken noses.

Rev. Harry E. Woods, recently recalled by his congregation after resigning last fall because of ill health was re-installed pastor of the First Presbyterian church in Sharpsville Tuesday night. Dr. S. A. Kirkbride, of New Wilmington, Dr. Charles Bell and Rev. Thomas G. Berger, of Ellwood City, Rev. Floyd W. Barr, of Beaver Falls and Dr. W. L. Wishart, of Sharon, all participated in the impressive service. The Westminster quartet furnished the music.

Gilbert and Sullivan once proclaimed that "a policeman's lot is not a happy one." Perhaps that is what 24 applicants for the Duquesne police force decided, for only one showed up for the civil service examination.

Married people, both men and women, live longer than those who are unmarried, statisticians of the Metropolitan Life Insurance company have found from a study. "One rule," they point out, "holds consistently throughout life; the married male is favored over the unmarried, and the disparity is not a mere trifle, it is very pronounced. In fact, over a considerable range of ages, from 30 to 45, the mortality of the married man is less than half that of the single." When it comes to women, however, the statisticians found conditions not quite so favorable for the married. Their death rate at ages from 30 to 65 is better by only about 10 per cent than that of the single; for very young wives, 20 to 24, the hazards of childbirth, concentrated at this period, raise the mortality of the married somewhat above that of the single.

Early implanted habits of industry thrive among New Englanders—even when they approach the century mark and are blind. Take, if you will, the case of Miss Martha F. Hills of Lowell, Mass., who will be 100 years old April 24, and who has been totally blind for at least ten years. Yet she knits incessantly and with all the speed and accuracy of one much younger and in full possession of her faculties.

How Many Pennies Your Child's Life?

Don't Try to "Save" on Home Remedies—Ask Your Doctor

There is one point, on which practically *all* doctors agree. That is: *Don't give your child unknown remedies without asking your doctor first.*

All mothers know this. But sometimes the instinct to save a few pennies by buying "something just as good" overcomes caution.

When it comes to the widely used children's remedy — "milk of magnesia" — many doctors for over half a century have said "PHILLIPS." For Phillips' Milk of Magnesia is the standard of the world. Safe for children.

Keep this in mind, and say "PHILLIPS' MILK OF MAGNESIA" when you buy. Comes now, also in tablet form. Get the form you prefer. But see that what you get is labeled "Genuine Phillips' Milk of Magnesia." 25¢ for a big box of the tablets at drug stores.

ALSO IN TABLET FORM: Each tiny tablet is the equivalent of a teaspoonful of genuine Phillips' Milk of Magnesia.

Hopkins Says Relief To Stay

Sees Five Million People Continuously On Relief In This Country

SAYS SOCIETY SHOULD HELP OUT

Central Press
Washington Bureau
602 Times-Herald Bldg.

By CHARLES P. STEWART
Central Press Columnist

WASHINGTON, March 18.—Relief Generalissimo Harry L. Hopkins is an extraordinarily good talker.

I listened to him recently. It was an "of the record" chat—not to be quoted.

However, I observed that he had a microphone in front of him. Hence I concluded that there was nothing particularly confidential about his remarks, since they were broadcast to everywhere that the ether would take them.

He has said substantially the same thing on many another an occasion, anyway.

So there cannot be much harm in drawing a few conclusions from this latest of his utterances.

* * *

PERMANENT RELIEF

The nub of Hopkins' speech was this, using no quotation marks:

Basically there is nothing temporary about the relief situation in the United States. Four to five million families are destined to be dependent indefinitely upon incomes, of their own, too small to support them decently. Such incomes will have to be supplemented by public money, provided by taxation.

Furthermore, said Hopkins, it does not matter that a family's proverty may be due to the more or less willful failure of its head to care for it properly. Even if so, it must be adequately nourished.

* * *

SOCIETY'S DUTY

Suppose, Hopkins suggests, that the head of a family does drink. Suppose he is lazy, and will not work when work is available. Suppose he is in the penitentiary. Suppose he has just been electrocuted, leaving a destitute wife and several children.

The wife and children must not be left to semi-starvation.

Surely no one will quarrel with this proposition.

The families of drunkards and bums and criminals are in hard luck. It is up to society to do the best it can for them.

* * *

MILLIONS IN HARD LUCK

But the heads of as many as four of five million American families are not drunkards, bums and criminals.

A large proportion of them are in as hard luck as are their families. They would do well by their families if they were able to. They themselves are victims of a social-economic system that their families are sub-victims of.

It is an old prohibition argument that drunkenness causes poverty, the fact undoubtedly being that, in a great majority of cases, poverty causes drunkenness. It is discouraging to a man to work if he cannot make a living by doing so. Maybe a certain amount of criminality results from the hardships that folk of a certain class live under.

It would seem that the system should be attacked; not its symptoms.

* * *

SYSTEM FAULTY?

Yes, the innocent children of a man who has been electrocuted should be supported; they were not guilty.

But what can one expect from such children?

If an individual has been brought up on relief, from the age of 2 or 3 to near-maturity, is it not natural for him to expect to live on relief permanently? Is he not almost entitled to consider it his right to be publicly supported?

Oh, if his father was a drunkard or was electrocuted, there is no remedy for it!

Society must do its best and take its chances.

But the SYSTEM manifestly is faulty.

* * *

NOT AN ECONOMIST

Harry L. Hopkins, however, does not care a hoot for the system.

Relief is his fetish.

Hopkins is a confirmed welfare worker. And a good one. But he is not much of an economist.

He prescribes for symptoms; not for diseases.

Mahoning Grange To See Farce Friday

"The Dutch Detective," a three-act farce, will be witnessed in the Mahoning Valley grange hall when a cast of players from the choir and Epworth League of the Wesley Methodist church present it on Friday evening, March 19 at 8 o'clock.

Characters will be:

Otto Schmultz, the part which Thomas Grittie takes; Plunk Jarleck, Peter Grittie, Jr.; Jabo Grabb, John Grittie; Major Hannibal Howler, Carrol Forrests; Augustus Coo, Finley Matthews; Gladys Howler-Coo, Myrtle Cox; Dee Pech, Ambrosia McCarty; Miss Araminta Sour Drop, Erma Matthews; Larva Bacon, Hortense Smatters; Katrina Kraut, Margaret Grittie.

Health Officer Makes Request

Dr. William L. Steen, health officer for the city, today requested the public to not use only authorized carriers to haul away rubbish. He made this request because of men and boys hauling rubbish and tin cans to vacant lots in residential sections, instead of taking them to dumps. Authorized carriers take out a license at the health department where a list of their names and addresses is kept, Dr. Steen added.

Pope Pius Makes Ringing Appeal

Calls Upon World To Combat Menace Of Bolshevism In An Encyclical

By FRANK GERVASI
International News Service Staff Correspondent

VATICAN CITY, March 18.—In a new and ringing appeal to a world "menaced by Bolshevism," Pope Pius brushed aside his infirmities today and called upon all nations and all people to turn back the red tide of "Hate, Godlessness and Chaos."

In an encyclical laboriously prepared at the risk of further hastening his death, the pontiff declared communism today threatens every country of the world.

His words gave clear and conclusive evidence of his fears that the spread of Bolshevistic doctrines has brought civilization close to destruction.

The Pope called upon all civilized peoples to resist what he termed the "diabolic propaganda of Bolshevism" and marshalled priests and laymen of the Catholic church in a front-line battle against the "menace of marxism."

He exhorted particularly the youth of a world "more or less tainted with communism" to return to Godliness from the "slippery paths" they have been treading.

This encyclical of Catholicism's "Pope of Peace" was a complete documentation of the church's long struggle against the subversive forces of Bolshevism and represented the pontiff's spiritual "last will and testament."

Officers Reserve To Meet Tonight

K. OF C. THRONG IN ANNUAL PARTY

Council Host Honors St. Patrick's Memory In Night Festivities

Merry Irish songs and dances, fitting to the day, made the three-story Knights of Columbus home in the downtown ring last night as the celebrating knights and their families, their sweethearts and other guests took over the building for what proved to be the most colorful St. Patrick's Day party St. Mary's council has ever staged.

The council home on North Jefferson street was thronged all evening. The program, arranged by a committee headed by Gerald A. Guinagh, held the crowd until late.

All for fun and for good old Irish friendship, the happy throng came and saw real entertainment and remained until a tasty lunch had been served late in the evening. There were no dull moments—for if a moment went dull there soon broke out Irish singing. Cards occupied some of the participants.

Little Eileen Murphy, popular all over New Castle, did her famous song and dance numbers, and the Kaycey Players, a dramatic group, produced an Irish play, "Men, Women and Ghosts". Thomas Cunningham, Mrs. William Howley and Helen Chill were outstanding. A singer, Francis DeSanctis, contributed numbers.

The lunch at the close was served in an appropriate St. Patrick's Day setting.

Assisting Mr. Guinagh, the chairman of the party, were Richard Burke, Norman Travers and Bradley McGonigle.

New Castle Drug Co. To Give 1000 Free Bottles "Vendol" On Friday And Saturday

"I want you to try my wonderful root, herb and alkaline medicine before you buy," says the Vendol Man, so come to the New Castle Drug Co. on Friday or Saturday of this week and ask for me.

Hundreds of men and women of Penna. have taken Vendol because it is already widely known in nearby cities, although new here. Quickly relieves troubles in the stomach, dizziness, weak kidneys and other things due to constipation. Now you can try it FREE.

THE VENDOL MAN
Now at New Castle Drug

To introduce the widely known remedy Vendol, which is already so popular in many nearby Penna. cities, New Castle Drug Co. have secured the services of a trained expert from the Vendol Co. in Baltimore, Md., to meet the local public and explain all about this medicine, and he invites everyone to come and get a liberal size, free trial bottle, as long as his supply lasts.

The Vendol Man says: "My invitation is such that everyone should be glad to accept. No matter what remedies you have tried or how many bottles of other medicine you have on the shelf half full because they did not give the relief you expected or desired, you cannot afford to refuse to try my medicine FREE.

Vendol is the medicine of which Mr. Burchell said: "It's the only thing that relieved acid dyspepsia, gas and sour risings," and Mrs. Swift declared: "It relieved constipation quickly and quieted my nerves so that I get sound, refreshing sleep every night." Mr. Ackroyd said: "I'm now relieved of constipation, backache and quivery nerves that kept me awake for hours every night." I could quote hundreds of others, but what's the use—come try it for yourself.

When you have a feeling you wish you could "take a day off"—not really sick but yet not up to mark; when your stomach feels gassy after meals and your food seems to lie heavy, when you feel drowsy, a little giddy-headed or dizzy; if you have lost your appetite, can't sleep well, have pains in the back, muscles or joints, and just feel generally "out of sorts," all because you are constipated and are full of poisons—it's a sure sign that you need a good remedy.

Don't let this condition go unheeded, it will not right itself alone, but needs assistance. Some of your vital organs require a little toning up or some real disease will slip in and get a firm hold on you. Don't put it off till tomorrow, next week or some more convenient time. That might be too late.

My free trial bottle will prove to you all that I claim and a full treatment will have you looking like a different man or woman. I say this because I've seen it happen over and over.

Vendol is not an ordinary patent medicine but is different from the usual run of medicines offered the general public, so do not confuse it with any other remedy. Twelve herbal plants are used to compound with successful remedy, each one selected for its known action on the organs of the human system, added to them are valuable alkalines. Vendol does not just "boost" you up for the time being, but relieves constipation, the seat of the trouble, therefore results are lasting.

I could write a book as big as the Dictionary but couldn't prove as much as you'll find out for yourself by taking a bottle of Vendol, so don't delay.

I have headquarters at New Castle Drug Co., 31 E. Washington St., and invite every man or woman in this city and vicinity to come to see me there. If you will just tell me your troubles, I'll be honest and square with you as to whether I believe Vendol will help you. If I do not think it fits your case, I'll tell you so frankly. I only want people to take Vendol whom I believe it will benefit.

Take home a valuable pamphlet I have for free distribution, try one of my free bottles, and if you do not discover that Vendol is the best medicine you ever took, I'll be disappointed. Strike At Local Plant Continues

Situation At Plant Of National Pants Company Remains Unchanged Today

BOTH SIDES ARE MARKING TIME

Conditions remained unchanged today at the plant of the National Pants Company, where workers have been engaged in a sitdown strike, demanding union recognition, for the past thirteen days.

Both sides are marking time in the controversy, awaiting the outcome of conferences which are being held in New York between officials of the Amalgamated Clothing Workers Union and plant owners.

There was little to report today, it was stated at the factory on the Butler road, everything having been quiet during the past twenty-four hours.

Sally Wilson entertained the girls by singing the "Lost Lamb." Ione Farver made some announcements and these were followed by patrol meetings. Plans were made for a skating party, at the roller skating rink, Thursday, March 25.

Georgia Howland and Martha Lawrence gave a sketch which proved very entertaining. Short court of honor followed the meeting.

Should Approve Increased Court Professor Says

Dean Leon Green Of Northwestern U., Heartily Approves Of Court Plan

(International News Service)

WASHINGTON, March 18.—The supreme court has assumed an "attitude of intolerance" against liberal legislation, that should be corrected by enactment of President Roosevelt's plan to inject new blood into the tribunal, Dean Leon Green, of the Northwestern University law schcol, declared today at the senate hearings.

The slender gray-haired law school professor said:

"It is not unjust to say that the majority of the court has assumed an attitude of intolerance and displayed an intemperance towards much of the legislation that has come before it in recent years, wholly out of keeping with the respect accorded to the court itself by all citizens."

Green declared the supreme court was regarded as an "ark of the covenant" but contended it should never become a "sanctuary for holy men" who would overlord the remainder of the federal government.

He has hostile toward a constitutional amendment, asserting it could be perverted as had other amendments in the past.

The dean made a lengthy plea for "new blood" on the court. He traced the court's decisions over a long period. The kind of interpretation it gave to the constitution years ago would bring most of the New Deal legislation within constitutional bounds, he said.

"It is clear from these cases," Green added, "that a very serious division existed in the court long prior to 1933 and that it continues to exist. It was as pronounced before as after the emergency legislation of the New Deal. The line of cleavage has been clearly drawn. With the members of the court in sharp division.

"And let it be said that the majority of the court has for most part produced the crisis that has resulted."

LAST REPUBLICANS AT CAPITOL TO BE OUSTED

Ripper Bill To Get Approval

Expect Public Service Commission To Be Out Within Two Weeks

DEFENSE IS MADE AT PUBLIC HEARING

By FREDERICK N. POLANGIN
International News Service Staff Correspondent

HARRISBURG, March 18.—The administration today began writing the last stanza to the Public Service Commission's swan song.

Within a week, two at most, the legislature was expected to rip out of office the last vestige of Republican control on Capitol Hill to make way for a five-member board to carry out Gov. George H. Earle's demands for lower rates.

This, notwithstanding the declarations before the senate utilities committee at a public hearing yesterday by members of the commission, including its chairman, C. J. Goodnough, that they had fulfilled their duties public spiritedly, had saved $23,000,000 annually for Pennsylvania's consumers and could effect more rapidly reductions only if they had larger funds and an increased staff of investigators at their disposal.

Decision Unchanged

That Governor Earle's decision the present commission "must go" will remain unchanged, observers entertained no doubt.

The chief executive, however, was confronted with charges by Commissioner P. S. Stahlnecker that he, the governor, prior to the November 3 landslide, "repeatedly had praised the work of the commission," and declared:

"Where we find public officials are now performing their work properly in the interests of the people, there will be no removals. No judges or public service commissioners will be 'ripped' out for political reasons."

And from Commissioner Thomas C. Egan:

"If this legislature will give us money we will start a rate case against every Pennsylvania utility tomorrow. But it will be like the man on the flying trapeze and would take a 100 years. Meanwhile, the people of Pennsylvania will go on paying the present rates."

Said Goodnough:

Proud Of Record

"No charge has been made, and so far as we know, there is not even a suspicion that the commission, or any member is or has been corrupt. We are proud of the record we have made and we challenge comparison of our record with the record of any other regulatory commission whether state or federal as to the efforts we have made and the results we have achieved."

Acrimonious words reverberated through the senate chamber as members of the utilities committee attacked the commission for not bringing about lower rate reductions and more promptly.

Sen. Harry Shapiro, Philadelphia Democrat, charged that the commission had "compromised" with the utilities, never arriving at an actual rate that would call for a return to the companies or not more than six per cent.

"What's the use of having a commission if you are going to compromise," he said, "the legislature can do that itself."

He was told by members of the commission that it was physically impossible to do what the governor demanded on a limited appropriation and small staff.

SET APRIL 4 FOR MISSION OPENING

Week Of Special Services Planned To Launch New Activities

The City Rescue Mission plans a grand public opening for Sunday, April 4, Superintendent Archie W. Gibson announced today. He said arrangements for prominent speakers during that week are now being formulated.

Renovation work on the mission's upper floor where the dining hall and sleeping quarters for transients are located, is nearing completion, Mr. Gibson said today. Many changes are being made.

Outstanding speakers already engaged for the formal opening week are Dr. John A. Galbreath, former pastor of the Epworth M. E. church and now of Kane, Pa., and the Rev. C. A. Blackmore, superintendent of Erie's City Mission.

The opening week services will start Sunday, April 4, and continue nightly through that week.

Rev. Gibson plans to preach on "Seven Signs of the Times" on Sunday evening, March 21, at 8 o'clock.

One verdict was received late Wednesday afternoon that in the case against Ralph Zolton, charged with being an accessory after a felony. He was acquitted of the charge.

With the docket of the March term of criminal court fairly well cleaned up, there will be court held only in number one the rest of the week. The only cases remaining are the murder charge against Sam Traci and the accessory charges against Paul Perconti and Sam Santucci.

The murder case which opened today is being tried in court room number one before Judge James A. Chambers who has been trying the various charges aside from murder since the term opened. Judge Braham has had two murder cases in court room number two, the one against Angelo Pedonesi and that against Rocco Esposito. This court will be closed for the balance of the week.

The Esposito jury seems to have set a new record for time consumed in arriving at a verdict, at least in a murder case. Not in years has a murder jury gone over five hours but at eight o'clock this morning they had already been out eighteen hour.

That will mark the eighteen toughest hours some of the jury ever put in for the chairs in the jury room are a relic of the Spanish Inquisition.

Shield Italian In Shooting By French Beauty

French Police Destroy All Evidence Linking Italian Official With Woman

FLAMING LOVE LETTERS SEIZED

By LEE DICKSON
International News Service Staff Correspondent

PARIS, March 18.—Shielding the name of a "high Italian personage," police and courts today formed a conspiracy of secrecy to hush details of the shooting of Count Charles De Chambrun by beautiful Magda De Fontagne.

While the tall brunette was sobbing out her story behind the locked doors of the palace of justice, police made a thorough search of her apartment to destroy all links with the Italian she was believed to have been in love with.

Love Letters

Her apartment walls, it was reported, were covered with photographs of Premier Benito Mussolini of Italy.

The apartment is also said to contain flaming love letters from several of the most important men in France and Italy. These will be seized by the magistrate and sealed, their contents never to be revealed to the public.

Suffering from a flesh wound in the abdomen, Count De Chambrun, former French ambassador to Italy, is "progressing satisfactorily and is out of danger," a hospital bulletin said.

Sorry Gun Jammed

"I am sorry my gun jammed," Mme. De Fontagne, who shot Count De Chambrun once as he was entering a Brussels express train, told police. "Otherwise I would have killed him."

She charged that the count "broke a confidence, and destroyed the great love of my life." She, too, refused to confirm reports that Mussolini was the object of her unrequited love, saying only that she loved "a high Italian personage."

Magistrate Pierre De Giraud, his secretary, Mme. De Fontagne, and her lawyer, Reno Floriot, went to her apartment to secure the love letters.

Mme. De Fontagne is a classic-featured, dark-haired brunette with tawny, oval eyes. She is between 30 and 40 years old, a divorcee and former newspaper woman.

Hanlon To Preside As K. Of C. Head Speaks Friday Eve

Martin H. Carmody, of Grand Rapids, Mich., supreme knight of the Knights of Columbus, will be the principal speaker at a joint meeting of sixty councils in the dioceses of Erie, Altoona and Pittsburgh, at the William Penn hotel, Pittsburgh, Friday evening, March 19.

State Deputy Bernard N. Hanlon of this city, will preside, and many district and state officers are expected to attend.

The meeting is sponsored by Pittsburgh chapter, of which Andrew F. Goyette is president, and a short business session of the chapter will precede the main meeting, when plans for the chapter's annual Easter Monday night ball, with nineteen councils in the Pittsburgh area participating, will be discussed.

Partial House Poll Reveals Trend

(International News Service)

WASHINGTON, March 18.—A partial poll of the house revealed strong sentiment for a compromise proposal under which a two-thirds vote of the supreme court would be required to hold an act of congress unconstitutional, Rep. Thom (D) of Ohio announced today.

Out of 333 Democratic members, Thom's partial poll showed: For the plan, 80; against, five; non-committal, 12.

AMERICANISM: (1) You must obey the law even if it is foolish; (2) but it's all right to violate the Constitution if it interferes with progress.

Protest Strike Lingers In Paris

Paris Strike Is Prolonged Far Beyond Scheduled Time

POLICE FEARFUL OF NEW TROUBLE

By KENNETH T. DOWNS
International News Service Staff Correspondent

PARIS, March 18.—Still furious over communist-fascist rioting, many thousands of transportation workers and small shopkeepers today prolonged far beyond the scheduled time the protest strike which paralyzed Paris.

At its height this morning the stoppage involved one million workers, forcing all Paris to walk to work or beg rides.

Officially, the strike was over at noon, but late afternoon saw many stores still closed, and taxicabs were almost impossible to obtain.

Police feared this evidence of continuing unrest might bring about renewal of Tuesday night's clashes in which five were killed.

The strike was staged in support of the left-wing regime against the fascists and rightists.

Walk to Work

Paris sidewalks were black with people walking to work, even from distant points on outskirts of the city five miles from the business center.

Striking members of the bus, subway and taxi unions held small meetings in the Clichy, Billancourt and Italie districts to register official protests against the "fascists" shooting Tuesday night in the Clichy "red belt", scene of the bloody riots.

There were colorful scenes as unabashed Paris businessmen, immaculate in derby hats, smart top coats and canes, "thumbed" their way to work in a succession of market trucks and other vehicles which were going in their direction.

While they were waiting for rides, the captains of commerce and industry sat in front of vegetable shops alongside pretty manicurists, midinettes and young girl office workers—who likewise sought rides.

SALVAGE EVIDENCE FOR USE AT TRIAL

(International News Service)

SALT LAKE CITY, Utah, March 18.—Evidence hauled up from the bottom of San Francisco Bay played an important part in a suit on trial in district court here recently.

A resolution of the board of the National Reserve company accepting settlement of a National Building and Loan company debt for $16,000 in 40 per cent "A" certificates and 60 per cent First Recovery certificates had been mailed from Los Angeles to Salt Lake and was aboard the airliner which plunged into the bay on Feb. 9.

A case involving liquidation of the building and loan company was tried here. The agreement, salvaged from mail aboard the wrecked liner, was introduced as evidence.

REDEEMED FROM MISERY AND HER HEALTH BUILT UP

Another Lady Finds Relief From Pain And Gains Health

"I caught a severe cold last winter that seemed to settle in my kidneys. They grew very tender and caused my back to ache most of the time, said Mrs. Ruth Myers, when the World's Tonic interviewer asked her to tell her story for the benefit of suffering people. "When I got up in the morning my back hurt so I could hardly get around. During the night I often had to get up, and my back hurt so much I could not sleep. Secretions from my kidneys were often very scant and sometimes quite offensive in odor. There were times when my bowels would not move for two or three days. Little pimples broke out all over my back and face, and my tongue became furred and yellow. I noticed that often my breath was bad. My stomach troubled me from time to time, until finally I realized I was being slowly poisoned by the failure of my kidneys to carry off the impurities in my blood.

"Nothing I had taken for my kidneys relieved me much. One day my father said that there was no use in treating my kidneys alone, as the trouble had gone too far for that, and that what I needed was a general constitutional treatment that would build up my whole system. I did not know what to get, but just at that time I read an advertisement of World's Tonic. It told of a man who had been relieved of severe kidney trouble, and I determined to give this tonic a trial.

"I had taken the greater part of a big bottle before I realized that my bowels were much more regular. Then I noticed that the secretions from my kidneys were greater in quantity than they had been. The rash on my face and back healed up, and while the pain in my back held on for a little longer, that soon disappeared too. My breath was corrected, and my stomach digested my meals comfortably.

"After about four weeks treatment I realized what World's Tonic had done for me—how it had redeemed me from misery and built up my health. The more I think of it the more astonished I am to think that troubles of such long standing and severe nature can be overcome so quickly, and I tell my friends that World's Tonic is the most wonderful medicine made." World's Tonic can be had of Eckerd's, Paisley's, or of any other first class drug store.

New Dealers Wives Appear As Pickets

Members Of Washington League Of Women Shoppers Appear At Plant

(International News Service)

WASHINGTON, March 18.—Fur-coated wives of New Dealers from uptown planned to go downtown during the day to resume picketing the plant of the National Pants company where the workers claim 150 of them are on strike and the manager, Charles Pilzer, claims there is no strike.

The women, members of the newly-organized Washington League of Women Shoppers, of which Mrs. Elizabeth Wheeler Colman, daughter of Senator Wheeler (D of Montana, whose husband is connected with the SEC, is president, suddenly appeared before the plant yesterday. They carried placards, along with some of the striking girl workers, reading: "The Washington League of Women Shoppers endorses this strike".

The marchers included: Mrs. Mordecai Ezekiel, wife of Secretary of Agriculture Wallace's economic adviser; Mrs. Charles W. Collier, whose husband is an executive of the soil conservation commission, and Miss Ann Craton of the WPA.

PERFORM OPERATION ON GIANT APE GIRL

(International News Service)

COLOGNE, March 18.—A successful appendicitis operation was performed on the five year old Oran-Utan girl "Lotte" by Professor von Haberer, chief surgeon of the Cologne University.

"Lotte", uncontested favorite of all visitors of the Cologne Zoo, had been sick for a couple of days. An X-ray examination revealed traces of iron filings in her appendix. Condition of the giant ape-girl is satisfactory.

Senate Air Safety Committee Makes Several Recommendations Today

Would Increase National Air Defense, Eliminate Flying Hazards

By ROBERT A. M'GILL
International News Service Staff Correspondent

WASHINGTON, March 18.—A broad federal program to expand aviation, increase national defense and eliminate the hazards of flying was recommended to congress Wednesday by the senate air safety committee.

The committee, headed by Senator Copeland (D) of New York, urged drastic reorganization of the aviation division of the department of commerce and increased government subsidies to enable the United States to maintain its number one position in world aviation. The chief recommendations, the result of 20 months of study, were:

1. Construction of a dirigible for the army and navy.

2. Recreation of the office of assistant secretary of commerce for commercial aviation, and to serve under him, a chief of division of ground facilities, and chief of division of flight activities.

3. Immediate expenditure of $14,545,000 for air safety equipment, experimental purposes, and an increased inspection force.

4. Maintenance in time of peace of a satisfactory nucleus of a wartime aeronautical force.

5. Appropriation of sufficient funds in the war department bill to enable the president to mobilize the commercial airlines to maneuver with the military aviation units.

6. Reduction of airmail postage to increase business for aviation companies.

7. Creation of a disinterested federal agency to study aviation problems and act in a judicial capacity in disputes between the department of commerce and private operators arising from airplane accidents.

8. Federal centralized control of regulations for commercial air routes and airports.

9. Airway traffic control, including maximum flying hours for the industry.

Seeking to prevent a recurrence of the recent series of air tragedies, Copeland urged immediate consideration of the committee's recommendations.

Liquor Store Workers Want Higher Wages

(International News Service)

HARRISBURG, March 18.—Employes of the state liquor stores today urged the legislature to grant them a "more abundant life."

Representatives of the Pennsylvania State Employes Association, made up, for the most part, of liquor board employes, protested existing wage and promotional conditions and asked that two civil service bills affecting them be enacted promptly.

The measures, introduced by Rep. Kenneth Harkins, D., Allegheny, establish salary schedules of from $1,620 to $6,000 yearly, a civil service system and provide for promotional examinations.

A movement aimed toward the construction of a modern Community House in the Scioto street section was launched by members of The Townsmen, civic club whose major activity is boy's work, at their weekly meeting in the Y. M. C. A. last night.

Discussion of such a project closed with the naming of Attorney Josephy R. McFate as chairman of a committee to organize and direct efforts in the project's behalf.

The Townsmen have sponsored boys' club in the Scioto street district for years.

Rev. Harry E. Woods At Central Church

Rev. Harry E. Woods, who on Tuesday night was re-installed as pastor of the First Presbyterian church of Sharpsville, and who holds the record of having served three pastorates in Shenango Presbytery, will be the speaker tonight at the Central Presbyterian preaching mission service on the public square.

Last night Dr. Charles N. Moore, of Park avenue, gave a forceful sermon. Friday night the last of the series will be given by Dr. Grant E. Fisher of Adams street.

Simple Home Treatment for Varicose Veins

Swollen veins may become dangerous and sometimes break. Sufferers are advised to get an original bottle of Emerald Oil at Eckerd's Drug Store or any pharmacist and start to reduce the veins and bunches at once. A small bottle will last a long time, because it is very concentrated and a little goes a long way. Apply night and morning with a soft brush or the finger tips as directed until the swelling is reduced.

So effective is Emerald Oil that it is highly useful in reducing troublesome simple swellings due to strain and hastens their disappearance.

Three Paving Bills Will Be Acted On At Monday Session

Council indicated during today's meeting at the city hall that three bills providing for the paving of streets on the A program would come before the body for final passage next Monday.

They provide for paving of Fairfield Avenue between a point west of Carlisle street and Mercer street; Hazelcroft Avenue between Carlisle Street and Mercer street, and Sumner avenue between Highland Avenue and Albert street.

The cost of the materials will be assessed against abutting property-owners, according to the terms of the proposed ordinances.

Delay Award Of Contract

Council met in the city building today and Councilman Joe Alexander and City Engineer Glenn R. Throop recommended that a bid for a bar screen and mechanical cleaner be awarded to E. F. Scanlon, this city, at a bid of $2,400. However, the award was delayed owing to lack of money in an appropriation for machinery.

When the 1937 budget was compiled $2,000 was set aside. The contract price is $2,400. The difference, $400.00 cannot be added to the appropriation until April, owing to a state law governing appropriations.

The contract price provides for the machinery and installation. However, council has not yet decided whether to buy the machinery and have someone else install it or award the entire proposition to Scanlon.

Grimm Looks For Tough Race Again

"No Runaway For Any Of National League Teams This Year", Says Pilot

Cubs Banking On Joe Marty, Sensational Coast Rookie To Make Good

(International News Service)

AVALON, Cal., March 18—It's not going to be any runaway race for any team in the National league.

You can take the word of Charlie Grimm, manager of the Chicago Cubs for that.

"We look for a great race for the pennant this year, with five strong teams practically evenly matched as contenders," Grimm told International News Service today at the Cubs' spring training camp on Catalina Island.

Teams Stronger

"Cincinnati, New York, Chicago, Pittsburgh and St. Louis have all strengthened their teams during the winter," he said. "Because of that it is very hard to say that one has the edge on the other."

Grimm made it plain he did not intend to jinx the Cubs by a too glowing account of their own chances. But he was smiling confidently as he watched his veterans and a fine crop of young hopefuls going through their paces on the practice field.

"The team to win the pennant will need all the breaks," he declared emphatically.

"The Cubs have a bunch of fine looking young prospects this year.

Five Good Pitchers

"We can count on five starring pitchers in Jimmy Carleton, Larry French, Bill Lee, Le Roy Parmelee and Curtis Davis.

"During the few workouts that we have had so far, Joseph Marty, Henry Majeski and Albert Epperly look impressive.

"It is too early to figure on picking even a probable lineup.

"We intend to carry nine pitchers, three catchers, five outfielders and six infielders on the team for the 1937 season."

Depend On Marty

Many baseball experts here feel that the Cubs' chances will depend in a great measure on Joe Marty the San Francisco outfielder who led the coast league hitters last year.

Whether he will be able to perform in the center pasture for the Cubs as he did for San Francisco is the question.

The Cubs, however, have had great luck with the players they have picked from the coast.

Grimm is said to be laying awake nights wondering whether Marty may not do for the Cubs what Joe Di Maggio did for the Yanks.

Playing for San Francisco, Joe could hit 'em. He didn't lose the knack when he broke into big time.

Grimm is praying Marty will do half as well.

Meanwhile, workouts at the Bucs training camp speeded up under the promptings of Manager Pie Traynor. Paul Waner was still among the holdouts.

MEXICO CITY, March 18.—Wally Moses, star outfielder and erstwhile holdout, today had joined his mates at the Philadelphia Athletics training base in the capital. After signing a contract reputed to call for $8,000 for his 1937 services, Moses went directly into training with 29 other Mackmen. He is expected to play in today's intramural game.

Three of the new players, Del Young, who will lead off the batting cast; Herschel Martin and George Scharein will be in the Phils' lineup when they square off against the invaders.

CLEARWATER, Fla., March 18.—Johnny Cooney, who today celebrated his 36th birthday, and who has had experience both as a pitcher and shortstop, may be the Dodgers' regular centerfielder, it was indicated today.

ST. PETERSBURG, Fla., March 18.—Pat Malone, Irving Hadley and Johnny Murphy were selected to do the pitching today for the Yankees in an exhibition game here with the Cincinnati Reds. Cunningham In Final Indoors Meet Is Winner

Beats Romani, Beccali, Lovelock And Venzke In Easy Fashion At New York

By DAVIS J. WALSH
International News Service Sports Editor

NEW YORK, March 18.—Jack Lovelock, the New Zealander with the matchless leg action of a gazelle, may have won the 1,500-metre race at Berlin, but forget it; pay it no heed, just act as though it never happened. For, as far as last night was concerned, it practically never did.

The greatest mile runner in all the history of competition is Glenn Cunningham of Kansas, and he proved it last night in the K. of C. games by winning what was probably the greatest mile ever run in 4:08 7-10, one-tenth of a second back of his own record. Two yards away was the other Kansan, Archie San Romani, in a little worse than 4:08 8-10. He was a dying foot in front of Luigi Beccali of Italy, with Gene Venzke soundly outrun in last place.

Cunningham Supreme

Two men beat 4:09, another beat 4:11. But nobody beat Cunningham and it is now my considered opinion that nobody can, and I don't bar Lovelock at his best. As a matter of fact, it would be interesting to reverse the reel on the last eight months and run the Olympic games all over again.

If you did, I'd almost have to take Don Lash of Indiana against the Finns. He couldn't move fast enough at Berlin to get out of the way of a wheelbarrow, but last night he was full or un in doing 9:00 9-10 for two miles and could have combed his hair while beating his own 8:58, the fastest two miles ever run.

Conn's Ready For Next Tourney Game

Manager Paul Eagan said today that Conn's basketball team, composed of former high school players, are primed for Saturday afternoon, when the locals battle St. Annes club, at Pittsburgh, in the second round of the A. A. U. tournament, now underway.

Last Saturday, Conn's demonstrated their strength by scoring an impressive victory over the Patt five. "Charles" Duglinski coaches the quintet. Saturday's game will be played on the South Side Community hardwood.

St. Nicholas To Play Sharon Here

The St. Nicholas church basketball team will play the fast St. Josephs of Sharon at the Falcon hall tonight. The St. Nick players are asked to be at the Falcon hall by 7 o'clock by Coach Nickie Uram.

The following are asked to report: J. Polenick, S. Teplica, J. Teplica, M. Polenick, Hordig, Dutkin, Huffner, Dudo, S. Motsko, Warso and Hnat. The St. Joes lost to the St. Nicks earlier in the season and the visitors hope to even up the score tonight. The score at Sharon was 24 to 23.

City Baseball League Assured Of Six Teams As Colonials Join Up

Colonial A. C. will be in the City Baseball league this summer, it was announced today by Jack McCann, the business manager of the North Hillers. The Colonials furthermore will be in the thick of the pennant fight, according to McCann.

The City Baseball league recently organized is now assured of six teams. It begins to look as if the Tin Mill will not join the City League this year. No word from Manager Alec Black has been received.

The City League will be kept open until the first of April for other teams if they care to join. After April 1st the schedule will be drawn up and no new teams admitted to the league.

Keystones Trim Braddock Team

Score Is 33 To 25 In Second Game Of Series, Played At Falcon Floor

The Keystone A. C. defeated the St. Thomas Holy Name team of Braddock at the Falcon hall by a score of 33 to 25, with Joe Kelly and Sammie Bullano the high scorers for the Keys. Bus Reiber had five points and Nocera had four of the points.

The Braddocklans led at the half 16 to 10. The Keys under Coach Andy Venditto, put on a real spurt in the second half and soon had the visitors groggy under an avalanche of field goals.

Best for the Braddocks were the famous Leech brothers with a combined total of 18 points. Curron, former Scott high all-scholastic forward, was held to a lone field goal by Bus Reiber's clever guarding.

The entire Keystone team played a fine brand of basketball. The series between these two fine teams is now even at one apiece. The third and deciding game will be played at Braddock at a later date.

Irish Fighters Becoming Scarce

Maxie Schmeling Yearns For Another Training Site Such As Conneaut Lake

VINCENT RICHARDS MAKING COMEBACK

By PAT ROBINSON
International News Service Sports Writer

NEW YORK, March 18.—Along Bash Boulevard today we find Ray Arcel and Whitey Bimstein . . . who in the last 20 years have seconded more fighters than any other two men on earth . . . boasting about their bankrolls.

Over a ten year stretch the two, working about 300 fights a year, banked over $200,000 . . . in fact, they made more than 95 per cent of the fighters they handled.

And both can do a fair job of surgery . . . on a torn face, ligament, or broken bones.

Irish Fighters Scarce

Both mourn the passing of the Irish from the ring. "The Irish have grown respectable," says Whitey . . . "Way I figure it now, about 33 per cent of the fighters in this country are of Italian parentage, 15 per cent Jewish and 15 per cent Spanish . . . About 10 per cent Negroes, 8 per cent Polish, 7 per cent German, 5 per cent French, and only 4 per cent Irish. All other racial strains account for the other 4 per cent."

Here's Jersey Jones with his annual all-star team of National Hockey League stars . . . Jersey picks Normie Smith of Detroit for goalie, Earl Seibert of Chicago, right defense . . . Babe Siebert of Canadiens, left defense . . . Marty Barry, center; Larry Aurie, right wing and Herb Lewis, left wing . . . all three of Detroit.

And he thinks the Montreal Maroons are a shoo-in for the Stanley Cup.

Good Old Conneaut

Here's Max Schmeling . . . all togged out in gray . . . coming out of a movie and yearning for the good old days when he trained at Conneaut Lake, Pa., for the Stribling fight. That was the most lucrative training camp of all time.

The German Schlager averaged more than $10,000 a week for five weeks there. "At that rate," smiled Max, "it should be better for me to train all the time and never fight."

Tom McArdle plans to toss Fred Apostoli in again with Ken Overlin on April 14 . . . and this time the Broadwayites will go hook, line and sinker on Fred to reverse the decision of their first meeting.

Richards Comes Back

Roger Bernard and Lou Ambers tangle in Flint, Mich., March 23 . . . Lou will be the fifth champion Roger will have met . . . The others being Battalino, Ross, Mandell and Chocolate . . . And he's no nearer to a title now than when he started.

Vincent Richards . . . now 34 . . . is planning a come-back on the big time . . . When he wrapped his car around a telegraph pole two years ago the surgeons said Vinnie would never wield another racquet . . . Now he's getting ready to tour England with Fred Perry and Ellsworth Vines . . . and is willing to risk a few kopecks that he can take Vines . . . Selah.

Castletons And Gersons Will Meet Saturday

The Castletons and Gersons will play a House-Indus League game at the "Y" Saturday night to determine the second half winners in the league. The Castletons have a chance to tie the Gersons for the second half title by taking the Jewelers over the coals Saturday.

The winner of the Gerson-Castleton game will meet the fast Keystone A. C. on the "Y" court Monday night in the first game of a three-game series for the House-Indus championship.

Penn State Varsity Teams Boost Record

(Special To The News)

STATE COLLEGE, Pa., March 18.—Penn State's six varsity athletic teams this winter compiled a .643 percentage of victories in dual engagements, and all Nittany Lion aggregations indicated definite improvement over last year's performances.

Out of 42 contests, Blue and White teams won 27. The boxing team leads all the rest with a perfect season of seven straight victories. The wrestlers defeated six of seven opponents, and the basketball five won ten games in seventeen.

Records in gymnastics, fencing, and swimming, while not as impressive as the others, show definite progress in sports which are comparatively new on the campus. The swimmers won from Cornell and Carnegie Tech while losing to Pitt, Penn, and Syracuse. The fencers won from Lehigh and Rutgers and lost to Temple, while the gymnasts dropped all three engagements to Temple, Army and Navy.

In the Eastern Intercollegiate tournament at Lehigh last week, Penn State's wrestlers retained their championship by amassing a record-breaking total of 34 points. The boxers, performing at Syracuse, were nosed out for the title by the Orange, 26 to 25.

The Nittany grapplers, coached by Charlie Speidel, placed five men in the finals and all won the coveted championships. They were Aldo Zazzi, 135 pounds; Jack Light, 145 pounds; Joe Krupa, 165 pounds; Ross Shaffer, 175 pounds; and Captain Joe O'Dowd, heavyweight. In capturing his third straight intercollegiate title, Light became the third wrestler in the Association's long history to perform this feat.

Three Lion boxers won individual crowns at Syracuse. They were: Frank Goodman, 135 pounds; Billy Soose, 155 pounds; and Izzy Richter, heavyweight. Richter and Goodman retained their 1936 championships, while Soose, a sophomore, ran up his sensational string of knockouts to ten by defeating both of his tournament opponents in this fashion.

Tenpin Stars Will Compete

Twenty-Eight Of Country's Best Tenpin Topplers Will Compete In New York

By GLEN BIRCHARD
International News Service Sports Writer

NEW YORK, March 18.—Twenty-eight of the country's top-notch bowlers will appear in a special joust over the tournament alleys of the American Bowling Congress immediately after the congress event closes May 4.

This was the announcement today of A. C. Lattin, New York sponsor of the international classic here. It is proposed to roll 28 games in the two days, seven each afternoon and seven each evening. Each contestant will roll one game on each alley.

Will Roll 28 Games

As the tournament alleys are "flats", being installed especially for the congress classic, as each pinster will have but one whack at each alley and, as 28 games represent a route that should prove a real test, the victor can be considered as having exclusive ownership to the first line in the "who-is-who" in the bowling world book.

The winner will get $1,000 with four other prizes of lesser degree provided. The entry fee is to be $100 per man and at this price and with such a "shoo-in" for the Stanley Cup.

U. S. Steel Co. Wage Agreement Signed

(International News Service)

PITTSBURGH, March 18—A year of peace was promised in the nation's steel industry today by the signing of new precedent shattering agreements between five large subsidaries of the United States Steel Corporation and John L. Lewis's steel workers organizing committee.

The agreements, effective until February 28, 1938, contain a "no strike" clause providing that any differences between the companies and the union shall be negotiated without cessation of work and left with an impartial umpire if the management and union are unable to agree.

In addition to Carnegie-Illinois Steel Corporation, the nation's largest producer, contracts were signed with National Tube Company; American Steel and Wire Company; Tennessee Coal, Iron and Railroad Company and Columbia Steel Company. Cheering and applause greeted announcement by Pihilip Murray, chairman of the SWOC, of the signing of pacts for the five companes, which employ about 160,000 persons.

All Standard Clauses

The formal agreements which buttressed the preliminary agreement signed by Murray and Benjamin F. Fairless, president of Carnegie-Illinois last March 2, contain according to Murray, "virtually all of the standard clauses contained in any standard trade union agreement."

The SWOC won an important concession when the companies agreed not to interfere with the rights of employes to join any union of their choosing. Likewise, the SWOC and the CIO agreed "not to intimidate or coerce employes into membership or solicit membership on corporation time or plant property."

Contract Provisions

Principal provisions of the contracts included these:

Outright recognition of the Amalgamated association of iron steel and tin workers, the CIO and SWOC union.

Eight-hour day and 40-hour week are established with time and one-half for overtime.

One-week vacations with pay granted to all mill workers and coke plant employes.

Seniority rights for employes are established by rule.

Dismissal compensation for all employes discharged for other than "specific" causess provided.

Safety and health provisions are continued.

Disputes of a local nature are to be adjusted by local grievance committee and plant managers where possible.

Conferences for making new agreements to begin February 7, 1938.

Employes given three holidays a year—Fourth of July, Labor Day and Christmas.

Those Signing Pact

Those signing the pacts for the union in addition to Murray were: David J. McDonald, secretary-treasurer of the SWOC; Van A. Bittner, western regional director; Clinton S. Golden, northeastern regional director and Lee Pressman, general counsel. A committee of 34 CIO workers from the 27 Carnegie-Illinois plants assisted them.

"We are very happy over the successful conclusion of negotiations with these companies," Murray said. An extra loud burst of applause greeted him when he announced Tennessee Coal and Iron had signed. A salary differential of a few cents less was granted the southern firm but equal pay was set up by the other four companies.

Fairless signed for Carnegie-Illinois and the other companies were represented by B. F. Harris, president, National Tube; C. F. Hood, executive vice president, American Steel and Wire; G. L. Perry, president, Tennessee Coal, Iron and Railroad and A. N. Diehl, president, Columbia Steel.

PLAN EXTENSIVE STUDENT TOURS

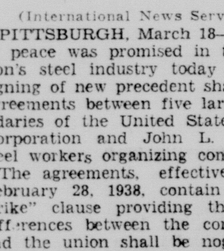

SLIPPERY ROCK, Pa., March 18.—Two extensive motor tours for college students interested in biology and geology are being arranged by Dr. R. A. Waldron of the college science department here. The first trip will be to Canada, probably early in June, to the Gaspe region, Quebec, and other points. The second tour, in August, will be to old Mexico. Last year a large motorcade accompanied Dr. Waldron on his three weeks trip to Mexico, which proved so popular that it will be repeated.

Miss Marian Hughes, a former resident of New Castle, and now a student at Grove City college, has been given the lead in the play, "Silas the Chore Boy", given by the Theta Alpha Phi honorary dramatics fraternity. The play is being presented tonight and tomorrow evening in the Carnegie auditorium, Grove City.

This is Miss Hughes' fourth leading part during the past three years, and speaks well of her dramatic ability.

FROM ME TO YOU

By MESEEALL.

It's time to start some real snooping . . . romance started with a bang this year . . . it is not always the young people that are the victims . . . we know a case, they aren't as young as they used to be . . . a very nice couple they will make . . . if I do say so myself . . . likes should always marry likes sang one little bird to the other . . . singing makes the world go around. We are sorry but no names can be mentioned at this time.

* * *

What certain young fellow in town sends his lady friend flowers . . . you will say, why a lot of fellows do that . . . fine . . . but do they all put their names on them . . . let me tell you romancers, always put your name on the package . . . I have been double crossed.

* * *

Boy, oh Boy, did people have fun last night . . . yes sir, people were sure having fun . . . all the old bachelors were out among them . . . Have you ever been out around East Brook Station . . . well there is a certain young man or maybe I should say, a certain man, that has been doing a lot of running around lately . . . he attended a show in Pittsburgh Saturday and last night he was dancing . . . We are wondering if a romance will look at him again this year.

* * *

You fellows are always talking about your women . . . well I happened to see one out last night that looked pretty fine . . . after one look you called her "Shirley" . . . and let me tell you, that's no slam.

* * *

It is rumored that a blessed event took place at Bessemer last night . . . Canada has nothing on us . . . five little bundles arrived at the Joe Yardis home . . . all are doing fine and they say they are the nicest goats in this part of the country . . . They tell me five goats at one time is a record and if the rumor is true, we have a winner.

STOCKS

Stock Market Is Under Pressure

Heavy Profit Taking Weakens Today's Stock Market, Slightly Lower

(International News Service)

NEW YORK, March 18.—Heavy profit-taking weakened the stock market today with all sections under pressure.

Two point losses were suffered by Illinois Central, Great Northern, Baltimore & Ohio and Pennsylvania, and nearly as much by New York Central, Northern Pacific, Atchison and Southern Pacific.

Similar declines were registered by Bethlehem and U. S. Steel, while Youngstown Sheet & Tube and Republic slipped half as much. Chrysler lost 2½ points in the motors and General Motors was down fractionally.

Reactionary tendencies also predominated in the metals, rubbers and oils. Anaconda, Kennecott, Goodrich, Goodyear and Standard Oil of N. J., all were a point or more under previous closing levels, while U. S. Rubber slumped well over two points before meeting support.

A few scattered issues resisted the general liquidation. Utilities, particularly North American and Public Service of N. J., were moderately improved. Glass and sugar shares were mostly steady.

Bonds were under pressure, although governments recovered slightly after their sharp declines in recent sessions. Grains were mixed, while cotton lost about 50 cents a bale.

For 3-Dimensional Movies

These trick glasses may be the last word for modern moviegoers because their inventor, a Paris cinema owner, claims they give a three-dimensional effect to the pictures—but the wearers hold hands in the good old-fashioned way, as girls and boys did long before even plain movies were invented. Brooklyn Is Not New York

Is City Apart, Although Other Boroughs, Have New York Aspects

NASHUA STREET IS NOISY PLACE

By O. O. McINTYRE

NEW YORK, March 18—Brooklyn is the only borough that is a part of the greater city yet seems utterly detached. All the other boroughs in the metropolitan area from Richmond to the Bronx have the New York flavor and their difference is entirely geographical. They talk and act the same.

O. O. McIntyre

But crossing to Brooklyn is like entering another city—a city as far removed as Seattle. The residents have a different look and their talk is not the same. Still many of the die-hards who continue to pronounce Cuba "Cuber", pearl "poil" and saw "sawr".

There's an immense calm too in Brooklyn that Manhattan has never achieved. The sidewalk pace is a saunter in contrast to the gallop. The police are a mite more friendly. And Brooklyn appears snugly in bed long before the midnight hour. It rises earlier, too.

Along the residential thoroughfares the houses have expansive lawns, rooms, porches and a lace curtained simplicity. Brooklyn Heights, the ancient aristocratic section, remains conscious of its venerable dignity and social restrictions as they were a half century ago.

And I have come to believe my favorite street for briskness and excitement is narrow and noisy Nassau, down town. Especially at the lunch hour when clerks, stenographers and other office workers take it over, overflowing the streets and pavement. There is a perk to the little specialty shops. Cafeterias with dance orchestras. Curb hawkers spieling everything from razor blades to ladies silk stockings. Also good nature in the milling and jostling—a geysering of suddenly released spirits from cramped office routine. Charles Dana used to like to stroll along Nassau. So did Frank I. Cobb, editor of the World, and Boss Clarke of the Sun.

Prowlers can find a noisy and interesting medley, too, in Radio Row on Washington street. Here the sidewalks and windows are jammed with the old and new radios, all of which seem blatting in horrible crescendo. One sign: "A 1930 $150 radio now 50 cents."

New York's tony restaurants have certain evenings and noons which are outstanding. Nobody knows why. A few bell-wethers start going there and the sheep come tumbling after. El Morocco is jammed on Monday night. The Colony overflows on Wednesday noon. Saturday is the night at "No 21" and Thursday evening requires a court order to get into the Stork club. The Waldorf Sert Room has its big night Tuesday. And so it goes. A place to go every evening in the week where the dressy may be seen and preen. And the chat writers fill their note books with names that count.

Mass electrocutions at Sing Sing cast their pall even on gay Broadway. When several doomed are scheduled to walk the last mile the same evening there is invariably a slow-up in attendance at night clubs and cafes that cater especially to after-theatre crowds. Movies and theatres also suffer from slim attendance. It makes the pleasure-loving very thoughtful. Gamblers do not like to gamble on electrocution nights either.

Hal Phyfe, the photographer, is regarded by experts of the art of ambulandi as having the most natural and graceful walk in the metropolis. His gait is the panther stride of the Indian. And the Indian influence is perhaps best explained by the fact that all his life he has worn nothing but moccasins. Even with full evening dress. Oddly, he was born in France and lived there many of his early years. He is a descendant of Duncan Phyfe.

Thingumabobs: Al Smith rarely misses Amos n' Andy....Ed Wynn often takes his son Keenan out to see Broadway by gas light....Arnold Reuben, delicatessen king, rarely eats any place but his own establishment....Abel Green, Variety editor, is a student of Shakespeare....Edward G. Robinson, film star, has a collection of more than 300 pipes....Merle Oberon likes to sleep in a room with many clocks ticking....Edythe Baker, the red-head who played the piano on the Ziegfeld Roof, is said to be the leader of the "American set" to which Mrs. Simpson once belonged....Eugene MacLean, publisher, made 19 straight passes the first time he ever rolled dice...And never rolled them again.

I gave my raccoon coat an airing a few weeks ago and back it went into the moth balls. Donning it, I ran a half block to catch a bus and a smarc alec yelled: "Hurry, Egbert, or you'll miss chapel!"

SIX STUDENTS IN "NIGHT CLASS" AT NEW WILMINGTON

(Special To The News)

NEW WILMINGTON, Pa., March 18—Westminster College has many day-classes but only one "night class" to which six students registered for this semester.

When a course called "Mathematics Laboratory" could find no time during the day to be scheduled, half a dozen students agreed to meet from 7 o'clock in the mornings until 8 for the class, twice each week. Now, in order to make a 7 o'clock class, one must crawl out of bed by six; and at 6 o'clock, it is still night in terms of darkness. Members of the "night class" are anxious for spring to arrive, and the time when it is daylight at 6 in the morning.

The course, taught by Dean A. C. Burr, is a practical application of all the knowledge learned in geometry, algebra, physics, and other allied courses. Its purpose is to learn the use of all the techniques of mathematics.

OPERETTA WILL BE PRESENTED MONDAY AT SLIPPERY ROCK

SLIPPERY ROCK, Pa., March 18—An operetta, "The Gift," depicting the life of the famous composer Mozart will be presented by students of the junior high school here on Monday evening, March 22, in the college chapel. The presentation is under the direction of Mrs. Gladys Arnold, assisted by the music, art, and health education departments. More than 100 persons are co-operating in the production.

Next Sunday Is New Members Day

Sunday School Contest Is Reaching Climax—Look For Big Attendance

"New Members Day" will be next Sunday March 21 in the increase campaign known as the "Gold Rush" sponsored by the Lawrence County Sabbath School Association, and the following Easter Sunday March 28 will be the close of the campaign which has stimulated attendance in the eleven participating Sunday schools and which has shown that concerted effort will bring results. To date, the Sunday schools taking part have accumulated 1923 gold nuggets.

While new members will be especially sought next Sunday still the old members who are not attending regularly must not be neglected, as both count as pure gold in excess of the average attendance for 1936. Perhaps there will never be a better way discovered of getting new members than by taking enough personal interest in some neighbor, friend or acquaintance so that a personal invitation is extended and they feel that it is to their best interest to attend. There is an old saying, "Preach to me and I will leave you cold, but speak to me of my own personal best interest and I will follow you to the ends of the earth." Sunday school attendance when properly presented has a vital appeal and eighty per cent of the church members in the state of Pennsylvania come through the Sunday school.

The spirit prevailing throughout this effort to increase Sunday school attendance has been especially good, as the thought in mind at all times has been to increase and benefit every Sunday school in the city.

Don't Sleep When Gas Presses Heart
If you want to really GET RID OF GAS and terrible bloating, don't expect to do it by just doctoring your stomach with harsh, irritating alkalies and "gas tablets." Most GAS is lodged in the stomach and upper intestine and is due to old poisonous matter in the constipated bowels that are loaded with ill-causing bacteria.
If your constipation is of long standing, enormous quantities of dangerous bacteria accumulate. Then your digestion is upset. GAS often presses heart and lungs, making life miserable. You can't eat or sleep. Your head aches. Your back aches. Your complexion is sallow and pimply. Your breath is foul. You are a sick, grouchy, wretched, unhappy person. YOUR SYSTEM IS POISONED.
Thousands of sufferers have found in Adlerika the quick, scientific way to rid their systems of harmful bacteria. Adlerika rids you of gas and cleans foul poisons out of BOTH upper and lower bowels. Give your bowels a REAL cleansing with Adlerika. Get rid of GAS. Adlerika does not gripe—is not habit forming. Eckerd's
